

Universe View

Future Societies

.....

Starting point

In the same way that,

the whole **natural** universe including human being
has been created, **without** any human help or any
man made innovation

In the same way, can

The whole universe be studied “ natural scientific”
without any man made laws, values, mathematic,
technologies, aims etc. thereby

So long studies are not without any human innovated
intellectual and physical means **are not creation**
aimed natural scientific studies.

Universe View

A. Functional universe

Matter, energy, gravity, spacetime,
black hole, singularity, big bang etc.

with any intellectual and physical definitions,

no one of them has thinking, awareness, volition,
deciding and acting (TAVDA) properties for
being a

DCDer or Decider, Creator, Developer.

Thereby

Not only they have not been cause of even
an act in the creation,

even again

**they are not at least aware of their
own existence..**

because again, they have not (TAVDA) properties,

**they are man made
intellectual and physical innovations**

.....

.....

B. Practicability and Falsification

Practicability of the view Is existing and functioning
universe which is created without any man made means.

Falsification of the view is **Proving that** without man
made means, creation of the universe was not possible.
