1.C. Natural Scientific leadership

C I. Natural scientific leadership

C II. In the case of human properties

or applications

C III. Natura scientific leadership

Summary

((((((((((O))))))))((((((((((O))))))))))))

1. Emphasizing point

Nothing is analyzed in this book ideologically,

Everything it is analyzed for being

Natural scientific or man made.

((((((((((((((O))))))((((O))))))))))))))

2. Starting point

In the same way that,

the whole **natural** universe including human being
has been created, **without** any human help or any
man made innovation

(but cases like having a child, MEP has given
responsibility of, making decision for having a
child, to parents.

In such cases MEP does not need any help,
in the same way that MEP has created
first human beings

in the same way can make decision in all cases.

but in such cases without having any need for
any help , MEP has given responsibility of deci-
sion making to people).

In the same way, can

The whole universe be studied “ natural scientific”
without any man made laws, values, mathematic,
technologies, aims etc. thereby

So long studies are not without any human innovated intellectual and physical means **are not creation aimed natural scientific studies.**

((((((((((O))))))))((((((((((O))))))))

3. Three different universes

I. New born child

A. a new born child is not born as

Moslem, Christian, Jew

On the other side

B. child do not born as

Messenger, Calif, Imam, Pope, Rabi

Or

King, sultan, prime minister, president,

Chief of communist party etc.,

In addition

C. child has not with himself or herself,

money, Bow and arrow, sword, machine gun

atom bomb etc.

0000000000000000

(cause of mentioning Bow and arrow and sword here is the point, when the MEP (Creator)

Does not create these things, these means that

The MEP is against violence and dictatorship, thereby, those who attacked other people and other countries in the name of MEP creator ,

they were not for the MEP they were soldiers of killing, plundering etc. they where

Classic barbarians.)

((((O))))))((((((((((((O)))))))))

II. Man made un – natural scientific universe

De – natural scientific Socialization of children by

- a. Man made un – natural scientific nutrition
- b. Man made (un - natural scientific) religions
- c. Man made political un - natural ideologies
- d. Man made un -natural economy activities By Money and ownership etc.
- e. Man made military powers by different

weapons

Result of these unnatural socializations are

Different psychological, physical, social
Environmental etc. diseases an problems

As we see in 2020

((((O))))))((((((((((((O))))))))))

III. Natural Scientific Universe

Function of human body and universe

Without man made intellectual and physical innovation, because these man made are Un natural scientific **interference** activities in Natural scientific function of human body and the universe.

Following Human body's and nature's natural scientific

(WVLMSFTA etc.) will lead humanity to Natural scientific societies and natural Scientific socialization of children by leaving behind the man made (WVLMSFTA etc.)

((((O))))))((((((((((((O))))))))))

4. There are three different Leaderships

- 1. A Man-made Leaderships
- 1. B Religious Leaderships
- 1. C Natural Scientific Leadership

.....

**1. A. Different " Man-Made " Democratic
Leaderships**

- / Individual Democracy
- / Western - Representative Democracy
- / Marxist - Democratic Centralism
- / Anarchist Direct Democracy and
- / All Humanity Democracy decision-Making
and Leadership .
- /Impact of the Mobile and Internet on the Lead-
ership styles

1. The Individual Level or the Individual Democracy

Choosing, deciding, and doing in the individual level
by everybody, herself or himself.

2. Representative Democracy and Leadership

Democracy in its general use means " ruled by the peo-
ple."

Based mainly on the following points, the followers of
the Representative ddemocracy choose this kind of de-
mocracy, among others, because of

- I. The Impossibility** of the collection of people in larger Levels for direct decision making and
- II. avoiding anarchy**, because of too many different, ideas etc.

3. Marxist Democratic Centralism and Leadership

According to the Great Soviet Encyclopedia :

“ The essence of the " democratic centralism" lies in the combination of democracy and centralization.

Democracy : Is the sovereignty, independent activity and initiative of the toilers, and the election of directing bodies and their accountability to the masses.

Centralization : consist of leadership coming from one centre,

subordination of the minority to the majority.

discipline and the subordination of particular interests to general interests in struggle to achieve the goal that has been set.

Although democracy and centralism are contradictory and are in

perpetual conflict in societies

based on class antagonism,

under the conditions of socialism, they are in dictatorial unity “.

(Great Soviet Encyclopaedia V.8 - 117)

4. Anarchist Direct Democracy and Leadership

According to the Oxford Companion to Politics of the World

" the central theme of all anarchist doctrines, is the **illegality of the state**, but the central theme of non-anarchist, political philosophy is the **legitimacy of the state**, the right of the state to rule.

- As the term " direct " means,
- this democracy like the representative democracy,
 - a. does not give the power to representatives.
 - b. like democratic centralism, does not give the power to any party even Marxist and in its own, direct case, there are two kinds of anarchism,
 - c. Anarcho - Cyndicalism which accepts the Cyndicalistic power construction and
 - d. Anarcho - communism which rejects even this representative - collectivist form of leadership.
- They believe in direct democracy.”
(end of the quote?)

5. All Humanity Democracy

An hypothetical situation in which around
(8000 000 000)

people will take part in a decision.

Again and again, based on this point that
both the human body and all natural beings

are NS beings, thereby

It is not the number of people who decide
whether a decision is right or wrong,

It is rather the **NS result** of the decision
which shows whether the decision is right or wrong.

((((((((((((((O))))))))))((((((O))))))))))))))

**6. The Impact of the Mobile and Internet in
decision-making and leadership**

By access to the internet and mobile,

It can't be said that

because of local distances and
huge number of people in countries,
taking directly part in decisions is impossible.

Because in this time,
everyone can take part in decision making in different ar-
eas, instead of choosing some people for
decision-making, organs like parliament.

((((((((((((((O))))))))))((((((O))))))))))))))

7. Paradox of democracy : democratic dictatorship

Because by the mobile, from almost everywhere, everybody can take part in decision-making at the same time, to **avoid a paradox of Democracy** namely

Democratic Dictatorship.

As it is known, for example, in an election with result
51 % – 49 %
49 % must follow 51 %.

Something which is not less than a kind of dictatorship
namely, a Democratic Dictatorship.

If 51 % of **four years time**,
was lead by majority part and
49 % of four years, by minority part,
Then could be said democratic leadership.

((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

8 Subjectivity of democracy

A. Human being is a natural scientific being,

Constructed and functions by Natural scientific

Values, laws, technology etc. but

b. Man made laws, values, technologies , leadership

are not natural scientific, thereby irrelevant

to human body and Nature.

based on natural empirical reality ,

even man made **existing physical empirical realities**

are not “real empirical realities” they are man made , “
subjective, not real empirical realities.

all human diseases , damages in societies, nature and
space are result of these man made, subjective not real,
laws, values, technologies, leadership etc.

((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

9. Nominalistic view and studies on

society and development direction,

including democracy and leadership, etc.

According to nominalists,

We don't know that what will be development direction

Up, down, right, left.

Nominalists base their studies mainly on the

Present normative man made , subjective or not
natural scientific empirical realities. In other words

They search on the “ emperor’s new clothes” .

This nominalistic , “ we don’t know “ is

Like complex of the uncertainty principle and superposition for adherents of uncertainty, in quantum physics which

is a super position for

sewing new clothes for human society

and universe (like what the tailors of

the emperors new clothes do).

)))))))))))))(((O)))))))))
(((O)))))))))

1. B Religious Leadership

Because of , intellectual relativity of every individual

and the whole humanity together

views in this study can be up to 100 % wrong.

But so long

views are not falsified, they will be defended.

(((O)))))))))

The Different Points in religious thinking and societies :

1. Women's position in the natural scientific creation
2. Leadership
3. Holy Books as constitutions
4. Holy places
5. Economy
6. Weapons and war
7. A daily enmity with the MEP
Separating people into different religions.

.....

1. B. 1 Women's natural scientific creation

For the birth of every child,
there must be one woman and one man,
without each one of them , there will not be any child
thereby, in a NS empirical reality,
with millions of undeniable examples every day,
the so-called “ **less evaluation of women**”
**is man-made – not creation-made and
thereby, not MEP-made.**

Without “ a woman” , there will not be any man and
without “ a man “ there will not be any woman.
This means that in the MEP's NS creation
a woman is 50 % and a man is 50 % and
1 woman + 1 man = 1 human being
in contrast with what has mainly happened and is hap-
pening
with women in human history and the world.

.....

1. B. 2 Religious Leadership

Not only
the Leadership of
/ Emperor, Sultan, King,
/ Rabbi, Pope, Khalife, Emam, Mofty, Ayatollah, or
/ President, Prime Minister, Chief of Party etc.
are rejected

Even

- a. **The leadership of every individual over her or his own body and**
- b. **The leadership of all humanity together are NS as well not man made with above mentioned titles.**

=====
This irrelevance is basic and cause of almost
all human intellectual, physical, social, environmental
etc. diseases and problems and so long humanity does not
follow own body's and universe body's natural scientific
constitutions, humanity will face different diseases and
problems.

=====
Again, in the case of leadership ,
different dimensions of essence (WVLMSTFA etc.)
of every natural creature is
its, her his constitution for
thinking about, acting according to etc.

((((((((O)))))))))((((((((O)))))))))

Does the MEP (the Creator)

interfere in human life

by sending Messenger ?

((((((((((O))))))))))((((((((((O))))))))))

According this study ,

The MEP does not interfere ,

Some examples :

1. Not interfering Religious

A. Nobody is born as

Moslem , Christian, Jew, Hindu,
Buddhist etc.

B. Nobody is born as religious leader

Like, Calif, Imam, Pope, Rubin etc.

C. MEP or the Creator has not created
religious books and buildings

2. Not interfering Political

Nobody is born as

King, sultan, shah, emperor

President, prime minister,

Chief of the communist party etc.

Thereby MEP has not interfered political

3 . Not interfering economic

A. MEP has not created any kind of Money
and

B. Has not given ownership right of even
one particle not only to a single human
being, even not to the whole humanity,

Nothing in the universe is for owning,

Because

from not discovered particles

to the whole universe

every natural being is a natural scientific
book for study of human being for

a natural scientific life.

Thereby , MEP has not interfered economic

In human life.

4 Not interfering military

- A. Nobody is born as soldier, sergeant, general etc.
- B. MEP has not created , pill and bow, Sword of the **classic barbarians** and Machine gun , atom bomb etc. Of the **modern barbarian** which Are endless worth than classic one. Because, they , kill more people and , damage even, earth, air, space etc. as well.

Thereby,

MEP has not interfered military in human life.

5 Not interfering technologically

A. Buildings

While the MEP has Created, atom, cell, human brain, earth, sun and the whole universe

And every one of them With their

Natural scientific buildings

And while MEP could create man made buildings
for living, but

(it, she, he)has **not interfered** in

human freedom of self choosing way of living
and has not created man made buildings.

B. Transport means

Despite, MEP created atom, cell, human
brain, earth, sun, stars etc.

With unimaginable moves,

While MEP could create bicycle, car,
airplane, but has not done and

Thereby has not interfered in human
transporting life.

C. Communication and other man made technologies

Meanwhile, MEP ,

Has created , atom , with atom technology,

Cell with cell technology,

Human brain with brain technology and

The universe, with universe technology,

But

Meanwhile he could create man made innovation means but has not created no one of them, why ?

According to this study,

Needed means for living existing in the universe, but human being ,

Instead of going after discovering them,

Human being goes after innovating needed means.

This point is developed in part two, chapter three.

In this way MEP has not interfered in technological life of human being.

6 . Nutrition ,

Despite MEP has created both human being

And all nutrition articles and know them absolutely ,

has not said what should people eat and drink or not eat and drink.

Only MEP shows result of what everybody do , in their body and life.

Thereby MEP has not interfered in human nutrition life.

7. Clothing,

Despite MEP has created heat, cold, insect etc.

And their effects in human body,

Has not created “ cloth “ for human being

Thereby, has no interfered in human way of protecting herself or himself in this relation.

8. Decision for having child

Not interfering in decision making.

MEP does not interfere in parents decision making for having a child

for having a child,

MEP has given responsibility of, making decision to parents.

In such cases MEP does not need any help, in the same way that MEP has created

first human beings

in the same way can make decision in all cases.

but in such cases without having any need

for any help , MEP has given only responsibility of decision making to people.

9. **Endless etc.**

((((((((((O))))))))))((((((((((O))))))))))

((((((O))))))((((((((((O))))))))))

Now we go back to the question of this point

Does the MEP interfere in human life

by sending Messenger ?

((((((((((O))))))))))((((((((((O))))))))))

In this research

Based on,

1. MEP has not given any kind of Leadership to anybody, and

2. By giving properties like among others

Thinking, awareness, volition, decision making, acting (TAVDA) etc.

Has given the right of thinking , becoming aware and choosing –

to human being

Thereby

Again according to this study

Sending a messenger by MEP,

is interfering in human life and

Thereby,

is impossible.

((((((O))))))((((((O))))))

MEP's role in the universe

Related to DCD er (Decider, Creator, Developer

Related to the DCD, natural beings are two groups

1. Beings with , thinking, awareness, volition, decision mankind, acting, (TAVDA) like human being.

This group can think, become aware ,make decision and act.

2. Beings without these properties

Like matter and energy

This group because of not having (TAVDAetc.) properties,

A. Not only they can't act themselves,

B. They are even unaware of their existence

For ex. Matter and energy,

Not only they have not done even an act themselves in the creation,

They are even unaware of their own existence

In this universe.

Both matter and energy are only two means for the MEP for presenting own thoughts to human being and developing her and him

Natural scientific for a natural scientific life.

As it has been developed,

1. MEP does not interfere in the life of
Beings with (TAVDA) etc.

MEP in relation to this group (it, she, he)

Is like a Guide with a guiding leadership

Like a tourist guide (without any power in
relation to the tourists)who gives information to

Tourists . for example,

/ Those who are interested in atom , cell etc.

MEP shows

To researcher among others (WVLMSFTA etc.)

Of the atom, cell etc.

/ Or show results of bad nutrition in different
illnesses I human body,

/ or damaging nature in physical body of human
and nature.

but

2. In the case of beings without (TAVDA) etc.

MEP is the absolute decider. Because they are not

At least aware of their own existence.

((((((O))))))((((((O))))))

In the case of children

So far in human history, parents had more
general information about life but
In present daily life, for the first time,
children by using mobile and internet,
generally know more than their parents. Thereby
even children can **earlier** take part in decision making.

The mobile, computer and internet etc.,
**are establishing the basis of the future's
post-democratic natural scientific societies with
universal construction and universal function.**

But

at the same time, the present man-made societies
are changing towards the NS societies,
at the same time,
the human-innovated Mobile and Internet
will change as well, **to the non-physical**
natural scientific essence of the creatures and the uni-
verse

as a new mobile and Internet in which,
everybody's **mind** is her or his website in
almost 8000 000 000 minds of all humanity's
essence internet instead of
the man-made mobile and Internet at the present time.

By using

WVLSMFTA etc. network of inorganic and organic beings etc. thereby,
the **Leadership becomes** universal natural scientific essence, and

**by following the natural sciences,
will follow humanity the MEP of the natural universe.**

.....

1.B.3 Holy Books as constitutions

One of the wonders of the Creation is this point that,
the Creation does not lack any thing thereby
every un-natural innovation, including holy books which
are not created by the MEP, do not belong to the MEP.

All universes with all creatures on them and in them are

The **Encyclopaedia of the MEP**
in different subjects like :

/ the body of an atom as a book about the atom

/ the body of a plant as a book about plants

/ the body of an insect as a book about insects

/ the body of a bird as a book about birds

/ the body of an animal as a book about animals

/ the body of a human as a book about human.

/ etc.

As it is a reality in natural scientific studies of the world,
every creature is studied as a book.

But

the so-called Holy Books **First of all,**

they are not created by the MEP

like the book of an atom, the book of a cell, the book of

the human brain etc.

Secondly,

they are not even written by the messengers.

Thirdly

they are written a very long time after the messengers.

.....

1. B. 4

Holy Places

First of all again, the Creation does not lack anything

Every creature's intellectual and physical body is a building like

/ the body of an atom as an atomic building

/ the body of a plant as a plant biological building

/ the body of an insects as an insect biological building

/ the body of a bird as an bird biological building

/ the body of an animal as an animal biological building

/ the body of a human as a human biological building.

/ etc.

All these buildings are natural, created by the MEP but

Man-made buildings are not created or **built** by the MEP.

As it has been mentioned before, nothing is analyzed in

the book ideologically. Analyzing is about, the point is

man made or nature made.

.....

1. B .5 Economy

**Again , firstly the natural scientific universe does not
lack anything**

A. Money, banks etc.

Money, banks etc. **are not taken here,**
from the ideological point of view,
they have been taken from
“ **being natural creature or not** “ point of view.

Like the building, car, airplane, mobile etc.
they are man-made,
they are not natural and thereby,
they are not created by the MEP.

B. Ownership

Again these point are not ideologically related,
it is rather nature related, for being natural or
man-made.

Nobody has created even one particle of the universe,
the whole universe has existed even before the
human became aware of her or his existence, thereby
not only a particle like an electron,
does not belong to anybody
even for mankind, her or his own body does
not belong to her or him, **because,** they have
not created their bodies.

Sum :

nothing of the natural universe belongs to
/ any individual,
/ any family
/ any party
/ any state
/ not even the whole humanity, but
every individual in humanity has
“ natural access right”

to every natural creature, for her and his natural needs
and NS studies and living in which

/ thinking is NS

/ talking is NS

/ looking is NS

/ decision making is NS

/ living is NS etc.

Both in its physical and non – physical forms.

Economy, Money and Ownership related to

the human intellectual and social development.

Pre money age

in which there was not any existing money and thereby,
there was not happening any activity with money.

Money age

in which money has played the main role in economic ac-
tivities.

Card and code age

in which everybody has a card with a code,
now money is going out from the economy.

Post, Card and code age

in which even a Card and Code will disappear,

At the last hand,

In the natural scientific societies,
Even the Card and Code, because of not being natural,
will disappear from the human thinking and living uni-
verse.

What will be replaced, will be.....
nobody, has created the earth, the natural creatures, even
his or her own body,
thereby, nobody is the owner of anything.

In this age,

everybody has **universal access right**
to all natural creatures as different books, for reading or
doing research on them **in home universities** in which
everybody is a NS researcher,
every natural creature is a book for study, and
every place, even our bodies are different laboratories.

.....

1. B . 6. Weapons and war

The Sword, Cannon, Bomb etc. are not natural creatures,
they are man-made and not created by the MEP.

The Logic of these means are
“ ignorance, force and violence “ but
the logic of the MEP **by not creating them**
is logic, reasoning, in human inter – relation activities.

and

in the case of those people who don't believe in “ Logic “,
the way is using the brain's “ affecting property “

and affecting in the thinking world of such people.

In other words,

For stopping bad people, so long

what is done has been mainly “ physical “ wars.

But it should be done, “ intellectually” in the thinking
world of those bad people, in an intellectual discussion,
a thought to thought discussion

without any need of physical weapon,

in other words again,

bringing the “ physical “ field of dispute,

to the “ non-physical “ thinking world “.

surely those bad people who are unjust people

can continue their unjust activities even intellectually,
but so long they continue their bad activities,
the fight against them should be continued.

.....

**1. B .7 an all time enmity with the MEP, by
 Separating people into different religions**

The MEP never divides people into different religions,
like Moslem, Christian, Jew or
Islam, Christianity , Judaism etc.

This act is a man-made act for separation of people from
each other and abusing them .

This separation of everyday is enmity for the MEP who is
one MEP and is for oneness and a unified people.

As a natural scientific proof for this view,
everybody can think of her or his own body.

 In this one body,
the body consists of billions of individual cells
all these billions of cells together are one human body.

In this perspective

$$1 = \text{all} = 1$$

the **first part** of this view, the human body, has been evi-
dent

 in all human history, but
the **second part**, namely the unity of humanity as one
body,

by entering into the natural scientific society,
humanity will establish a universalized society in which

$$1 = \text{All} = 1$$

Establishing a universalistic natural scientific society

is on the way, the man-made religious, left, right etc. societies are not natural scientific , they are irrelevant to human body and nature and result of this irrelevance is, existing human intellectual, physical, social and environmental diseases and damages.

(this point is more developed in the chapter on technology).

))))))))))))))))))))))))))(((((((((((((((((((((((((((
((O))

1.C. Natural Scientific leadership

Essence (software, constitution) and property (application) leadership

.....

C.1 This leadership is based on the natural scientific

WVLSMFTA etc. and NS properties namely,

W (will) is NS will, not the left, right, religious etc.
wills

V (Value) is NS value not different man-made values
M (Mathematic), is NS Mathematics , not different
ideological M

(Mathematic) in political, economic etc. relations

S (Structure) is NS, not different non NS structures like, structures of presidency, religious leader, chief of party, employee, worker etc. –these are not NS

F (Function) is NS, not man-made functions like those related to each person’s own body, being, president, religious leader, chief of party, employee, a factory or worker in any man-made factory etc. these **are not NS functions.**

thereby they have no place in NS Leadership.

T (technology) man-made technologies are not NS technologies,

A (aim) man-made structural, functional etc. aims are not NS, only NS structures and functions belongs

to the NS aims and thereby NS Leadership.

Thinking, activity, living (TAL) etc. constructions, should be NS constructions, in other words,

everybody should think, be active, live as a NS researcher,

not like today in which the absolute majority of people’s TTAL (thinking, talking acting and living) are not NS with

all intellectual, physical, social, environmental etc. problems as a result. thereby, Man-made constructions do not belong to the NS Leadership.

.....

C.II. In the case of human properties,

So long, they are not used
natural scientifically, they are wrong, for example, Using
the thinking property should be used as a NS
researcher's thinking, the activity property should be
used as a NS researcher's activity, the living property
should be used as a NS researchers " researcher life."

Thereby the man-made using way of properties, as it is
today is not NS and does not belong to the Natural scien-
tific TTAL
or thinking, talking, Acting , living) way of leadership.

.....

C III. Natural scientific Guiding and deciding leadership

Related to " **thinking brain**",

natural creatures are divided in two groups

1. Creatures " **with** " thinking brain like human and
2. creatures " **without**" thinking brain

The first group especially human has among others
has following properties,

- / thinking property (application) ,
- / awareness property
- / evaluation property
- /will and volition property
- / mathematical property
- / technological property
- / decision making property etc.

Because of these properties
Has human freedom of
thinking, evaluating, deciding and leading own activities,
But

Creatures “without“ thinking, awareness etc. properties
not only they can't play leadership role, they are even
unaware about their own existence. Thereby, they are
leading by “ deciding “ Leadership by the MEP.

This group because of not having TAVDA etc. proper-
ties, they can never be any
DCDer or, Decider, Creator, Developer Thereby,
The leader of their activities is MEP or
Main Essence and Property or the Creator
with a **deterministic leadership**.

**The MEP or Main Essence and Property of the uni-
verse or the Creator Plays**

A “ Guiding” leadership for human being

and beings with (TAVDA etc.) or

Thinking, awareness, volition, deciding acting
etc. properties, by

showing and presenting physical body of the Creatures
and non physical Essence or (WVLSMFTA etc. and
properties as constitution of every creature **by which**
**the atom, the cell, the human brain etc. are con-
structed and function.**

B. Absolute deciding leadership

In the case of beings **without** (TAVDA etc.)

or Thinking, awareness, volition, deciding acting
etc. properties,

The MEP is absolute decider,

because

This part of the creatures are not at least
aware of their own existence in this universe.

The DCDer or decider, creator and developer of
this part of universe is

MEP or the Main Essence and Property.

.....

Summary,

Emphasizing point

Nothing is analyzed in this book ideologically,

Everything it is analyzed for being

Natural scientific or man made.

Chapter One

**Neither, man made leadership
Nor religious leadership are Natural scientific leader-
ship.**

Based on

- 1. Human body and the nature and universe are
Natural scientific beings,
- 2.. Development dynamic of the human, intellectual
and social development as the
“ **actual empirical reality**” changes human
thinking and living towards the

Co – existence with

- own body and nature which are NS Beings.
- 3. This co – existence move will lead to the post
democratic or Natural scientific societies.

Proves for the view are

- A. all NS researcher on human body and nature for
knowing them, following them and
- B. Avoiding damages on human body and nature.

.....

**In the case of democracy, in practice, from around
8 000 000 000 individuals of the humanity, there are
only around 100 persons who make**

the main decisions and lead the world, with Co-vid 19 as one of negative results of their leadership. This result shows that they are,

/ political psychopath,

/ economic psychopath

/ military psychopath

/ industrial psychopath

/ religious psychopath etc.

These around 100 People whose, own interests goes, before human and nature.

Result of their leadership is

Human sufferings and natures destruction in 2020 in which main parts of human ordinary life is paralyzed.

So long, every individual, is not active in the universal questions different 100 psychopaths will continue their leadership and mislead the humanity.

.....

Starting point

In the same way that,

the whole **natural** universe including human being has been created, **without** any human help or any man made innovation

In the same way, can

The whole universe be studied “ natural scientific”
without any man made laws, values, mathematic,
technologies, **leaderships , aims** etc.

thereby

So long studies are not without any human innovated
intellectual and physical means **are not creation**
aimed natural scientific studies.

.....

Practicability and Falsification

Practicability of the view is

Existing and functioning universe

Which is created and functions

Without any human help and

Without any man made means

Falsification of the view by

Falsifying the view by proving that

Without human intellectual help or physical innovated
means the universe could not exists and function.

A prove which is absolutely, natural scientifically impos-
sible because the universe and body of everybody

Has been existed before she or he becomes aware of her

And his existence in this universe.

Three evaluation points

Unimaginability

Living behind present man made societies and
Thinking, talking, looking, acting, living
Natural scientifically, without any man made intellectual and physical WVLMSFTA etc.
is unimaginable but

Undeniability

This is undeniable that man made intellectual and physical WVLMSFTA etc. are not natural scientific and result of this un – natural scientifically is
All human intellectual, physical, social, environmental
Etc. diseases and problems.

The only way

Based on undeniability, the only way is
the main natural scientific WVLMSFTA etc.
and property way.

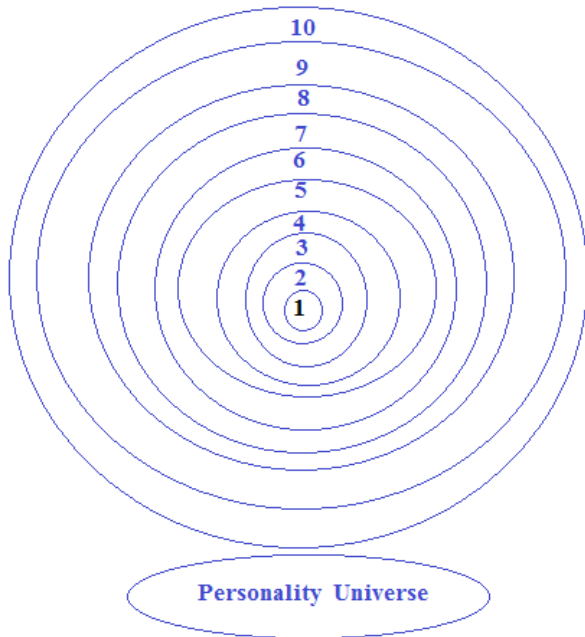

Chapter Two :

Personality Universe in Relation to the Matter and Non-Matter

((((((((((O))))))))((((((((((O))))))))
((((((((((O))))))))((((((((((O))))))))

**Construction
Of
Personality Universe
Among others**

Points before developing 10 points in the picture above

((((((((((O)))))))))(((((((((((O))))))))))
((((((((((O)))))))))(((((((((((O))))))))))

I. Intellectual Relativity

**of everybody and the whole humanity together and based on this relativity, every view is relative and thereby can be up to 100 % wrong.
Views mentioned in this book is not any exception namely Can be up to 100 % wrong.**

((((((((((O)))))))))(((((((((((O))))))))))
((((((((((O)))))))))(((((((((((O))))))))))

**II. Non matter (thought) and matter
In human brain**

Some examples for developing the point

This study tacks human “ Mind” as an example for developing

Matter and non matter. In which,

Neither mind

Nor its contents are physical,

Both of them are non physical.

1- **Physical universe**

related to the Mind : examples

A. Physical body of parents

B. Physical body of a Mobile

C. Physical body of an airplane

2. **Human brain**

A. Physical part of the Brain which

Can be seen, touched physically.

B. Brain’s non physical properties or applications

By which **physical impulses** reached to brain

Converts to non physical thoughts or concepts

For ex.

Impulse from parents, mobile, airplane etc.

converts to

Non physical concept of the parents,

Mobile, airplane etc. and

Saves in non physical Mind.

What is existing in the mind

Neither are physical brain

Nor physical parents, physical mobile,

Physical airplane etc.

Both mind itself and its contents are

Non physical thoughts or concepts etc.,

3 . the Mind

Is like an biological USB, in which are all non physical information collected.

4. Non physical – physical togetherness

One of very strange but very beautiful functions

In the universe is togetherness and cooperation of the

Matter and non matter , like cooperation between

Non physical Mind and physical brain or

Mind with physical body and Physical universe.

Small summary: Non matter – Matter

Mind and its contents, are

Neither

physical brain

Nor

physical beings like parents, mobile, airplane.

5.. Two different universes :

a. Physical parts belonging to the physical universe

Like physical brain, etc. and

b. Non physical thought, like human mind and its contents belonging to the

Non physical universe.

in this way very easy can we touch

difference between non matter and matter .

((((((((((O))))))))))((((((((((O))))))))))

Construction
Of
Personality Universe
Among others

Personality : Different points

2.1 The Non-Physical Personality

2.1.1 The Personality in Different Lives

2.1.1.1 The Physical life with the physical body

2.1.1.2 The Non-Physical life

2.1.1.3 At the “Same time, life

2.1.4 Remembering :

Awake , thinking and remembering

2.2. Non-Physical Essence

(WVLMSTFA etc.) or Software .

2.2.1 Three different levels or areas of

Non-Physical Essence or (software)

2.3 Non-Physical Properties or applications

2.4 The Non-Physical Individuality

2.5 The Physical Body

2.6 Functional process of

**/ non physical “Affecting property”
Of the human brain, for both
/ physical and non physical changes**
**2.7 The Brains Affecting property technology
Related to**

**/ Own body
/ Other people
/ Other creatures**

2.8 Position of the brain in

decision making and activities

**2.9 Where are Individuality, personality, mind and
Other non physical parts ?**

**2.10 The Aim of Human Creation
Summary**

((((((((O)))))))))((((((((O)))))))))

2.1 The Non-Physical Personality

The Personality

as in everybody's or the individual's

Leadership property or application which
uses, among others, TAVDA, properties, and the body
in everyday activities. as a result

neither, the physical part of the brain
nor the non-physical essence or bio. software of
the brain,
not even these properties

play any DCDer (deciding, creating, developing) role in the function of the brain and body, thereby again

the Decider (even for using the deciding property, the deciding property can't itself start and make a decision) for

Using

the brain and body in human activities.
it is every individual's

non-material Personality
that does the decision making and acting..

In the post-democratic natural scientific societies,
this personality use of the
physical body is as a **laboratory** for
searching information about the body, nutrition
articles and nature, these are
a natural scientific encyclopedia of
the creation in daily life, Because every physical nat-
ural creature is,
a written book which is a materialized (converted
to matter) form of the MEP's thoughts written
with a NS alphabet in a NS language etc. for
teaching NS researchers the creation subjects for
a NS life, by
Thinking NS, Looking NS, Working NS and
Living like NS researchers.

((((((((O)))))))(((((((((O)))))))))

2.1.1 The Personality in Different Lives

2.1.1.1 The Physical life with the physical body

The Present daily life by using the physical body, hands, feet, head etc.,

2.1.1.2 The Non-Physical life

The Personality's activities, without the physical body, like sleeping time in which , the physical body of a person is in a place but, her or his non-physical personality moves to different places without the physical body.

.....

Personality's
Different Functional position
Related to
Everybody's own body
Other People
Other Creatures

2.1.1.3 At the “Same time, life “ with and without the physical body.

in this case,

/ a person is awake and with other people,

/ the Personality moves without her or his physical body,

to other places and meets other people etc.

In this case,

a. The physical presence of the person and

b. The physical presence of the people around this person, are **not deciders** for the person's

presence in a place,
the **decider is** rather , the Personality and her or his
thinking world,
 (the thinking property itself can't begin and think,
 it is the Personality who decides for thinking and
decision making) thereby,
 it is not thinking property or remembering
property which decides for doing something,
 it is personality who is decider and doer.
Again thereby,
 In the case of “ same time life”
When somebody stay in a place and talks with somebody
 When suddenly he or she
 “ intellectually is not more in conversation,
 It is personality who has left that place
 It is not thinking or remembering properties which
 Has caused this “ not being there physical
 body is.

The most important point here to emphasize is
 / leaving physical body in sleeping and
 / “ same time”, life.

Related to the matter and non matter,

there are three different universes

1. Physical universe
2. Non physical essence of the creature's
 Universe,
3. Togetherness universe in which
 Non physical essence and physical uni-
 verses

despite

Not being mixed in each others

Has a “ togetherness “ function.

Human personality, properties belongs to the
non physical universe.

So long

This “ togetherness function” with own body
has happened

by the **creational functional laws**

like “ **breathing** “ etc.

One of main natural scientific research points for human-
ity is **discovering**

how personality

Cuts “ togetherness “ function with her

Or his own body and goes everywhere

Without physical body in the sleeping time

Or

/ in the case “ same time life “

How personality leaves

Her or his

“ **togetherness life and universe** “

And do other activities.

After discovering way of,

Togetherness function and

Separated function of the personality

Non physical personality can be everywhere in the uni-
verse,

From not discovered pre quarks

To , atom cell human brain,

To middle of sun and everywhere in the space.
Because by
Learning and leaving “ togetherness function”
With own body,
Personality can leave physical body and
Without physical body, she or
he **immediately** can be everywhere they
wish. Immediately, because
Personality is not a physical being.
These points are developed more in chapters five and six.

.....

2.1.4 Remembering :

Awake , thinking and remembering

In this case

It is the non-physical Personality who
seeks in the non-physical information collection of
the **mind (biological USB) as a library** of the collected
information, for remembering something. This happens in
everyday life for every person in the world.

.....

2.2. Non-Physical Essence

(**WVLSMFTA etc.) or Software .**

The physical body of every natural creature is, among
others, the materialized form of the following **non-physi-
cal thoughts, the will, value, laws, mathematics, struc-
ture, function, technology, aim etc.**

For making this point intellectually touchable, you can
think of an innovation of an innovator for ex.

Glassblower and innovating a Glass

.....

Essence in three different levels

(((((((O)))))))((((((((O)))))))(

a Glassblower and innovating a Glass

Glassblower non physical Will, wants make a glass for drinking water,	W
Glass has a non physical “value“ therefore it is wanted,	V
Glass has non physical laws, are used in making the glass	L
Glass its non physical mathematics which are used in size of the glass	M
Glass has its non physical structure, materialized in Physical structure of the glass	S
Glass has its non physical function, physicalized in Its physical using or function	F
Glass has its non physical, glass blowing technology in its production	T
Glass has its non physical production aim Materialized in using it in practice.	A.

Different sections in making the glass

1. All of these WVLMSTFA as soft ware are non physical thoughts, By using them the glass - blower

Converts and gives form to them
in physical glass, for drinking water.

2. Glass- blower properties or applications (born with everybody) by using among others, innovation and TAVDA property, leads the whole converting process.
3. Physical glass as “ matter” is used for making this

water drinking glass.

Thereby,

the physical Glass is constructed with,

/ Non physical essence (WVLSMFTA etc. or
soft ware and

/ Non physical properties of the innovator

Like “ innovation” property and

through

/ the **non physical personality** of the innovator

by using,

/ own physical body,

/ essence or soft ware of glass,

// own properties or applications.

**Now we come back to the Matter and the whole uni-
verse. like the case of innovation**

The matter and the whole universe

is constructed by

1. Non physical essence or soft ware of the matter,
2. Non physical properties of the MEP
3. Non physical Creator.

In other words,

The physical matter and universe **construction,
are prove for**

1. materialized or converted form of the non physi-
cal essence of atom and universe.
2. Their different functions are proves for existence
of different non physical properties, like the crea-
tion, (TAVDA etc.)

((((((((O)))))))(((((((((O)))))))))

**2.2.1 Three different levels or areas of
Non-Physical Essence or (software)
And properties (applications)**

In this case, the non-physical Personality of everybody tries

a. In relation to herself or himself

to have a non-physical essence or WVLMSFTAI life

b. In relation to other people,

to have a NS essence co – relation with other people

c. In relation to other creatures

to have a NS essence co – relation with other creatures, **in other words**, living in the

non – physical space of all physical, chemical, biological, mathematical, technological NS laws, by which

the universe is constructed and functions and has its own ultimate goals.

((((((((O)))))))(((((((((O)))))))))

**2. 3 Non-Physical Properties
Or Functional applications**

Without Properties (bio applications) can't the brain have different **functions, for example**,

by the thinking property (application), the brain can think
 by the seeing property, the brain can think
 by the decision-making property, the brain can decide
 But no one of number 1 and 2
 has any TAVDA (thinking, awareness, volition, deciding,
 acting properties or applications thereby,
 / not only all three can't do anything themselves,
 / they are not even aware of their own existence, hereby,
 they can never be any DCDer, decider, creator, developer.

They are only two different means for creation's DCDer.
 namely **(The Creator's) MEP**

In the case of the Properties and TAVDA,
 the Property section of the brain has these TAVDA **but,**
no one of these properties can interfere in other properties' functions

for example, the deciding property,
has not the awareness property for becoming aware of a
 situation for making a decision, thereby
 despite the presence of TAVDA in the brain
 even the properties can't be any DCDer in
 the function of the brain and body.

(((((((((O))))))))))(((O))))))

Different Properties

- L = Living property**
- T = Thinking property**
- A = Awareness property**
- T = Talking property**

S = Seeing property
AF = Affecting property
MFP = Matter feeling property
MTP = Materialization of thought
TMP =Thoughtization of the matter property.
Etc. etc.

.....

MFP = The property by which the human can feel non-physical thought or the software of the creatures in their physical forms, for example, the non-physical software of an atom or a cell or a tree in their physical forms.

How ?

In the same way that everybody,

- / by the non-physical living property can live,
(a dead body, despite physically existing but Not living, because of lacking life property)
- / by the non-physical thinking property can think,
by the seeing property can see,
- / by the affecting property can affect both intellectually and physically in her or his body,
- / by the awareness property can become aware of the creatures around him or her,
(Without this awareness, there is nothing, awareness recognizes the creatures' existence).

In the same way,

By the non-physical MFP or matter feeling property,
the human **can feel the non-physical**

essence (WVLMSFTA etc.) or soft ware
of the atom, cell, tree, human body etc.

in their physical forms.

The point is developed more in Chapter Four.

A more touchable example for this point is the case of
the conversation between talker – hearer in which,

the **Talker**

wants to say something to the hearer, for example
to ” **invite** “ her or him.

This “ inviting” is only a “ thought” without any physical
body in the talker’s brain.

by “ materialization” (converting thought to matter)
property or application,

this materializes in the talker’ brain,

this **non-physical** thought of “ **invitation**”,
in the physical voice is “ I invite you. “

The **result is,**

converting the non-physical thought of “
invitation “ to a physical voice.

the **Hearer**

receives a “physical voice of invitation” by the physical
ears and thereafter

the“ thought - ization “property or application of the

hearer **converts** the physical voice,

to the non-physical content of the voice,
namely “ inviting “.

In this process,

/ **the talker feels** this materialized content in a mate-

rial or physical form, **by the MFP Matter Feeling Property, and**

/ feels the hearer's

thought –ized, content in the non-physical “ invitation
thought “ **by TFP or thought feeling property.**

Without the MFP or matter feeling property

human can't feel anything in the physical form and

Without the TFP or thought feeling property

human can't feel any physical thing in its non-physical
essence form.

Again,

this process begins with a non-physical thought of the
talker and

after the **materialization** (converting to
matter) in the brain of the talker and

thought - ization (converting to thought)in the brain of
the hearer,

hearer's non physical personality

**has the non physical message for
ex. being invited to the talker.**

((((((((((O))))))))))((((((((((O))))))))))

2.4 Materialization of Thoughts in the Creation,

In the same way that,

the Talker's non-physical thought **converts** to a

physical voice,
In the same way,
The **MEP** who has given to the human
the “ converting “ property,

converts non-physical ideas and thoughts to physical creatures.

For example, the MEP,

converts (its, her, his) **non-physical** ideas about the atom or essence of the atom,
by (its, her, his) materialization property,
to the physical creatures.

/ The non-physical essence of the atom gets a physical body,

/ the non-physical essence or (constitution or software) of

a cell gets its physical body,

/ the non-physical software of the brain and human body gets a physical body etc.

**The practicability
of the view is**

/ the existing universe,

**/ the functioning universe at least is not aware
about its existence. This unaware universe is the Materialized Form of the MEP’s Thoughts.**

.....

2.5 The Non-Physical Individuality

The sum of all Natural Scientific capabilities which

the human has in her or his creation for her or his different activities and for his or her ultimate creation goal.

According to this study,

the human is developing his or her personality towards the creation aimed personality, namely **towards** oneness with the creation aimed personality,

in relation to his or her "own body"

in relation to "other people "

in relation to "other natural creatures ". Thereby

The Individuality Power is very huge and un-imaginable for the present human.

The Natural Scientific proofs

for these views and ideas are for

all NS researches in the world researching the human

body and for all other natural creatures and are

about using them natural scientifically.

What is lacking is

A. the existence or number of creatures that are researched by them

B. the number of people as researchers are almost none in other words, what is lacking is the universalization of subjects and researchers.

But, as it has been mentioned,

the "development dynamic" as

the **actual empirical reality**

is changing different man-made, right, left, religious etc. societies and they are moving on their way towards the Natural scientific societies, in which

/ everybody will be a natural scientific researcher

/ every Natural Creature will be a subject for study

/ and the co-relation between them will be NS.
 In other words,
 / thinking, will be NS as it is today in many re-
 searches like studies in medicine, chemistry, etc.
 / looking , will be NS
 / talking will be NS
 / acting or working will be NS -----
 / etc. etc. etc.

By learning and knowing the essence of the natural crea-
 ture, natural scientifically will people follow the general
 essence and property
 or software and property of the creation
 which is a **copy** of
 the **MEP (Main Essence and Property)** and
 thereby
 will follow the MEP, the Creator.

In other words

individuality is the potential and capability of
 the Personality of every healthy human,
 in the level of **becoming relative All Knower,**
Because the human is created for searching
 / **On her and his body**
 / **nutrition articles,**
 / **what so ever around her or him etc.**
for having " relative " best possible life.

.....

2.5.1 Where are Individuality, Personality, Mind
and all other non-physical parts of every person ?

.The position of "being with and togetherness "

For finding the answer for this question, this study begins from :

Nothing Point - Something Point in the creation

1. Nothing Point

In this study, this is the point in which there was not any of the existing creatures in the universe,

2. Something Point,

Based on this point that the existing universes, in the nothing point of creation, were not existing, but

now they are existing, this means that, their existence proves that,

**Before the physical creation of universes
there has been**

**an Existing and
Not Created "Being"**

who **has created** all natural creatures,
who is

the main essence (WVLMSFTA etc.)
and property of the **present existing universe.**

**How are these non-physical functions
in relation to our physical body ?**

Personality, Individuality, Mind etc.

According to this study,

Related to the physical place,

the non-physical personality

shows herself or himself

in different **physical acts,**

like talking, going, doing something,

without his or her non-physical personality,

there would not be any talking, going, etc.

Like following for example the Mobile's camera and taking photos.

1. The Non-physical Thought of " taking a photo,"

2. becomes materialized and takes "place"

by using the photo application and taking a picture.

Hereby,

3. the thought of " taking a picture " which

had not any physical place in the universe,

(thoughts belong to the "Non-physical" universe)

takes place **and shows itself**

together and with the physical photo.

this " being with and togetherness "

visualizes itself in the physical place

from the non-physical thought in the re-

lated point and act.

It is the same in the case of

1. the human's non-physical

essence's place,

Personality's place,

property's place,

Individuality's place etc.
they belong to the " non-physical" universe.

**Physically, they are related to the physical universe,
they are nowhere but
they are related to the "physical activities"
they are with different human activities
by**

The **position of "being with and together-
ness".**

**Every act visualizes
the place of
non-physical " thought" without any physical place
in
the related physical act by
the non-physical personality.**

Hereby,
Non – physical beings in the universe, including
the human essence and property etc.
have not any physical place in the physical universe,
they belong to the non-physical universe.
**They show themselves in a “togetherness“ relation
with
/ physical activities and
/ physical bodies.**

.....

2. It is the same with the MEP or the Creator
By position of
"being with and togetherness,"

the Non-Physical MEP
Visualizes the MEP (itself, herself, himself)
and everything takes place,
by **“being with and togetherness.”**
For example, in the case of creation,
the non-material essence (WVLMSFTA etc.) of every
creature and the whole universe
does not play any DCDer role in Creation.
The WVLMSFTA etc. are used by
the MEP for the construction
and function of the natural creatures.
These thoughts **are visualized , through** materialization
and they are giving a physical body
to the creatures, by the MEP.

.....

2.6 The Physical Body

The physical body of the human being.

.....

2.7 Functional process of / non physical “Affecting property” Of the human brain, for both / physical and non physical changes

Functional Process

Affecting Process

Non physical personality of every individual, by

1. Using non material “ thinking “ property thinks to do something, ex. talking. by

2. by Using non material decision making Makes a decision ex. talking . by
3. Using non material “ affecting property, for
4. affects in non material talking property or application of the brain and
5. Affects in physical organ of talking and there after
6. non physical personality’s , talks physically .

**Thereby, physical talking is
result of 5 non physical acts.**

((((((((((((((O))))))))))))((((((((((((((O))))))))))))

2.8 **The Brains Affecting property technology Related to**

- / **Own body**
- / **Other people**
- / **Other creatures**

In the same way that,

1. Everybody , through affecting property
Makes intellectual and physical changes
like,
Intellectual changes in ideas, views etc. and
Physical changes, like going, sitting, doing
something and changing what so ever and

In the same way that

2. All changes, in micro and macro levels of the

universe, happens without their awareness
by the **Main Affecting property**

In addition

In the same way,

Everybody has possibility of

1. **Related to her or his own body**

make both intellectual and

Physical changes for ex. in

/ WVLMSFTA of for ex. a cell or

/ physical cell,

2.. **related to other people** and

3. **Related to other beings** in the universe,

Human can Do same intellectual and physi-
cal changes.

As it happens endless, cutting and connecting,

Birth and death of cells etc.

/ in human body and

/ in the whole universe

without human and universe's awareness.

This intellectual and physical affecting and changing

Exists in every day life of every individual.

The first point for starting the process is

Discovering, the way that

How does the main “ Affecting property”

Or the MEP

affect and make physical and intellectual

Changes in human body and nature.

There after,

/ **Not only**

everybody can make needed

Changes in own body,

For ex. In own brain by
being her or his own surgeon
by

“ **affecting property**” as her or his
Surgical knife and forceps
make needed surgeries in own brain
/ even

can do same surgery in brains of
Other people

/ other changes
in other beings,
both in micro universe and macro
universe of other beings.

First needed mean is discovering

**how, personality can
act without physical body ?.**

Thereafter,

Non physical personality of everybody
Can be inside every creature and wher-
ever of the universe, from

/ not discovered pre quark beings
/ to quark, atom, cell, earth and even middle
of the Sun,

**because, of not having physical body
with personality.**

.....

2.9 Where are Individuality, personality, mind and Other non physical parts ?

by

Togetherness law, non physical and physical parts are together and cooperate with each other in this physical – non physical togetherness and cooperation for example in the brain

DIDer or decider, innovator and developer

Is

neither physical brain

nor non physical essence and

property

The human brain **is constructed by** the **non-physical** essence (WVLSMFTA etc.) or bio. software and

functions by the **non-physical** properties or bio. applications, **One important point here** is this point that,

Neither the physical brain,

Nor the non-physical essence and properties, are the

user of the brain, **It is rather, the non-physical Personality** of everybody. when somebody thinks,

It is not the physical brain which thinks,

It is rather the non-physical Personality who uses the thinking property and thinks .

again

((((((((((((O))))))))))((((((((((((O))))))))))

Neither physical brain

Nor non physical natural scientific laws of the essence and property

By which

brain is constructed and functions

are aware of their own

existence in this universe.

They are only two means for MEP

For presenting MEP's thoughts to

The human being.

((((((((((((O))))))))))((((((((((((O))))))))))

2.10 The Aim of Human Creation

**Everybody's
Natural Scientific intellectual development
towards
Relative All Knowerness**

or

- I. Everybody's
thinking, looking, talking, working etc. (TLTW etc.)
in oneness with
his or her own body's essence (WVLMSFTA etc.)
- II. Everybody's (TLTW etc.) oneness with
the other people's bodies' essence.
- III. Everybody's (TLTW etc.) oneness with the
other natural Creatures' essence.
- IV. Everybody's (TLTW etc.) oneness with the
MEP Main Essence and Property (application)
namely

MER or the Main NS Empirical Reality of the Creation.

The Creation's aim as mentioned here is based on
The Human trying to know and practice, among others,
/ the nutrition subjects
/ his or her own body
/ nature,

for a Natural Scientific healthy life.

Not knowing the above mentioned points has resulted in
the existing world with
all damages and diseases in which

even the air we breathe is damaged.
 This air pollution is one of the most clear proofs for the
intellectually backwardness of those
 who have damaged the air we breathe and again for the “
 irrelevance “ of the man-made additions to the human
 body and nature.

))))))))))))))))))((((((((((((((((((((

Summary

((((((((((O))))))))((((((((((O))))))))

The Personality

- I. **Related to Matter and Non-Matter**,
 The human body consists among others, following parts
 - A. **The Natural Part**
 1. The Non-Physical **Essence** or
 Constructional biological (WVLMSTFA etc.) .

2. The Non-Physical **Property or biological Functional applications.**
3. The Non-Physical **Individuality**
4. The **Personality.** Etc.

B. The Un - natural part

1. The Personality as a leading application is natural but at the time of birth, people are not aware of their existence in this world. they get different impulses, they choose by accepting and rejecting and by their activities.

Everybody creates her or his personality.

This created Personality is made by Her or His Natural “ Personality “ application.

C. Mind (biological USB)

Is the natural non-physical USB of everybody, in which all information, knowledge etc. are collected, an important point here?

Is this point important that mind, like the Physical USB or Library, is not aware of its existence? However, the Personality uses it for thinking and remembering properties.

II. The Personality in different lives and functional positions

A. Physical daily life

In this life, people are awake and living their daily life **with the physical body.**

B. The non-physical life during sleeping time

In sleeping life, the Personality

does not use the physical body

C. Both with and without the physical body.

In this life, despite being awake, the Personality leaves the physical body and has her or his “ non-physical “ activities

III. Individuality

This is the Sum of all Natural scientific capabilities which everybody has in her and his creation for different activities and thereby for developing her or his personality for becoming a creation-aimed Personality, for moving towards

A. Oneness with the creation-aimed Personality, in relation to “his or her **own body**”

B. In relation to “other people “

C. In relation to “other natural creatures “. Thereby The Individuality power is very huge and unimaginable for the present human.

IV. Where are the places of Individuality,

Personality, mind and all other non-physical parts of every person ? Related to the matter and non-matter, there are three different dimensions,

1. Material or physical universe because of being physical, it has a “ physical place” for being in,
2. Non-physical essence and properties

because of “ not being physical, “ they have no physical place, they belong to the non-physical universe.

3. Togetherness dimension in which, the physical universe is constructed and functions by non-physical essence and properties. As mentioned before, the “ physical” creatures and universe are constructed and function By the “ Non-physical “ essence and properties. These constructions and functions mean that Despite, Not being touchable by the five senses, they are “ together “ with the natural creatures and **because of this togetherness,** the creatures **keep their constructions and functions.** **Without this “ non-physical “ togetherness law,** **there could not exist any of the existing physical beings.**

V. The Aim of Human Creation

This view is based on,

/ Every individual’s NS body

/ nutrition articles, as NS beings (not man-made)

/ co-relation with other people as NS beings

/ co-relation with other creatures which are NS beings.

**Everybody's
Natural Scientific Intellectual Development
towards**

Relative All Knowerness or

Everybody's or the Personality's
thinking, looking, talking, working etc. (TLTW etc.)

In oneness with

I. Her or his own body's essence (WVLMSFTA etc.)

II. Everybody's or the Personality's
(TLTW etc.) oneness with **other people's** bodies'
essence

III. Everybody's or the Personality's
TLTW etc.) oneness with
the **other natural creatures' essence**

IV. Everybody's (TLTW etc.) oneness with the
MEP Main Essence and Property namely
the MER or the Main NS Empirical Reality of the Crea-
tion.

According to this study , the **Creation aim as mentioned
here is based on**

The human trying to know and practice, among others,
/ the nutrition subjects
/ his or her own body
/ nature, which is NS

TLTW, again which is Natural Scientific.

The main remaining point here is
the universalization of this NS healthy life.

Not living NS has resulted in the existing world with
all damages and diseases in which
even the breathing air is damaged.

This air pollution is one of the most clear proofs for
the **intellectually backwardness** of those
who has caused this situation.

((((((((O)))))))(((((((((O)))))))

Aim of human creation

According to this study,

Starting point

In the same way that

Human body is constructed

By Natural scientific (WVLMSFTA etc.)

Or essence and

Human body functions by Natural scientific

Functional applications, and
Thereby
Has natural scientific
constructional, functional and aim

In the same way

Personality of every individual,
can foster

herself and himself

Natural scientifically and

So long every personality

does not think,
does not talk,
does not live

natural scientifically

he or she, thinks, talks and lives wrong, and

**results of this man made thinking, talking and living
are**

so many diseases for human being and
damaged earth, oceans air, environment and space,
we are facing today.

According to this study,

Among others,

Based on , knowing own body,

Knowing nutrition elements and

Knowing creatures around everybody,

Is one of the first aims of the human creation,

For living better and better

natural scientifically and

Thereby,

Developing intellectually, socially,

Environmentally and universal, natural scientifically.
Thereby,

Aim of human creation,

Is

her and his natural scientific

(WVLMSFTA etc. development and

Based on human intellectual relativity,

Her and his intellectual development,

Will be **relative all knowerness**

She or he , never will be all knower.

((((((((O)))))))(((((((((O))))))

Practicability

Atom , cell, human brain and the whole

Universe are constructed and function

Natural scientific

Existence of universe and its function,

Is an undeniable prove for

Practicability of natural scientific life.

Falsification

Falsifiers should prove that

natural scientific life is not possible

because,

among others

part of natural scientific researchers,

all the time try to know more and more

human body and nature.

They try to know, human mistakes and

Damages as result of human

Un natural scientific living and
