The main Essence and Property's

Natural Scientific (NS)

“Guiding” leadership in

MFPS “ Matter Feeling Property”

Societies and

NS “ Absolute determining “ leadership in

MFPP “ Matter Feeling Property”

Physics

MEP in this study

MEP = Main Essence and Property = Creator

((((((((((O))))))))))((((((((((O))))))))))

For making the MEP easier for understanding, study begins with human innovations in which

A. Essence

Every human innovation, has different constructional non physical intellectual dimensions. Among others

(WVLSMFTA) etc. or will, value, law, mathematics, structure, function, technology, aim etc. by which

innovated thing is constructed and

B. Properties

or intellectual application thoughts by which different innovated things have their different functions.

C. Innovation Essence and properties

These Essence and property by which ,

Innovated things are innovated and have different functions , are not

intellectual essence and properties, in innovator's brain

Which are **the main essence and properties,**

They are a copy of the innovator's thoughts in essence and properties of – innovated things.

Because after innovation, essence and properties in the brain of the innovator, has not disappeared, they remain in the brain of the innovator as the **main form.**

D. **Creation's Essence and properties** in which

/ Every natural being has its, her, his own intellectual

Constructional thoughts as **Essence** and

Functional thoughts as **properties.**

These natural beings essences and properties

are a copy of the MEP who is

the Main Essence and property.

((((((((((O))))))))))((((((((((O))))))))))

(((((((O)))))))))(((((((O)))))))))

Thought – Matter

Materialization of the Thought -
Thought- tization of the Matter or
Converting non-physical thought to matter -and Con-
verting physical matter to non physical thought
and their co-relation

(((((((O)))))))))(((((((O)))))))))

I. Nothing point – Something point

Based on this point that,
the physical universe, including the human (before
her or his thinking and awareness properties start to
function) are existing and functioning, but they are

not aware of their own existence. Their existence and function is an undeniable proof for the existence of a
/ non-physical
/ not created
/ **before the physical universe, existed Being**
who is the Constructor and Function Giver to the un-
aware universe, Who
is the MEP , the Main Essence (WVLSMFTA etc.)
and Property of the universe.

((((((((O)))))))(((((((((O)))))))

II. Matter and Non-Matter WVLSMFTA etc. related to TAVDA

Matter, essence and the whole universe related to
TAVDA, The thinking, awareness, volition, decid-
ing, acting properties

Neither matter

nor the essence of the universe has TAVDA and

Thereby, they are not aware of their own existence,
hereby,

**They can never be any decider, creator, de-
veloper (DCDer)and play a “ deciding role”.** Both
of them are two means for the MEP in the construc-
tion of the universe.

((((((((O)))))))(((((((((O)))))))

III.. Time's Logic and its Development

Past – present – future

One of the dimensions of time is its division
into : past – present - future

In this Logic

Always the present is the future of the past
And the future is the coming present this means that,

The present societies are

Neither past, Nor future societies.

This development will continue until the human en-
ters **into**

**the post-democratic herself and himself chosen
non-physical essence and property society**

without

**any man-made or innovated things, neither physi-
cal nor intellectual means.**

in which

there will not be any matter-related time.

(((((O))))))(((((O))))))

IV. Five different empirical realities

1. False empirical reality

Based on this point that,

A, human body and the whole universe are natural scientific beings with natural scientific WVLSMFTA etc. and

B.. Man made WVLSMFTA etc. are not natural Scientific,

/ All man made

non physical innovations WVLSMFTA etc. and

/ All man made

physical innovations, are

false innovations with false empirical realities.

2. The actual empirical reality or development dynamic,

This “development dynamic” is “ actual reality” which changes all man-made unnatural innovations and replaces them with natural ones.

3. The relative empirical reality,

This is the reality that the human

/ understands from the human body, nature and the universe or

/ he or she innovates and makes herself or himself like all human and natural innovations, what we see in our societies and in the world today etc.

4. The natural scientific physical empirical reality,

This is the part of the MER which has materialized or

has been given the physical body by the MEP thought, the MEP’s Materialization Property.

This has existed before the human birth as well.

5. The MER or the Main Empirical Reality,

Related to the MER, this **non-physical** empirical reality,

it was existing before both the human and the Universe were created.

Ex. is again among others
/ existing universe,
/ functioning universe

But

/ unaware universe.

((((((((O)))))))(((((((((O)))))))))

**V. The “Main “ Natural sciences and
The “ Main” natural scientific
studies**

The whole universe including particles, are created

- a. Without any human help and
- b. Without any man made innovated means

thereby

So long studies, are not

- / **without man made WVLMSFTA** etc. and
- / **without man made means**, they

.....
 (here aim of two “ without” is not
 Without human engagement,
 It is rather,
 Without human **interference**, in
 “ natural scientific function
 of the natural beings by
 / man made (WVLMSFTA etc. and
 / man made means among others
 Like Double - slit experiment,
 CERN studies
Otherwise, human being take part in
 Searches and studies).

are not “ **Main**” natural scientific studies,
 They are
 1.. “ Human understood” natural sciences and
 because of human intellectual relativity,
 2.. They are relative views.

(((((O))))))(((((O))))))

/ Testability and Practicability

Is existing, functioning universe which
 Is not created and is not function by
 Any human being and by any man
 made means.

Three evaluation points

Unimaginability

Living behind present man made societies and
Thinking, talking, looking, acting, living
Natural scientifically, without any man made intellectual and physical WVLMSFTA etc.
ss unimaginable but

Undeniability

This is undeniable that man made intellectual and physical WVLMSFTA etc. are not natural scientific and result of this un – natural scientifically is all human intellectual, physical, social, environmental etc. diseases and problems.

The only way

Based on undeniability , the only way is
he main natural scientific WVLMSFTA etc.

((((((((((O))))))))))((((((((((((O))))))))))

Chapter Four

Thought – Matter

**Materialization of the thought and
Thought - ization of the Matter Or
Converting non-physical thought to matter and
Converting physical matter to thought and
their Co -Relation**

((((((((O)))))))(((((((((O)))))))

**Intellectual Relativity
of everybody and the whole humanity together
and
based on this relativity, every view is relative and
thereby can be up to 100 % wrong.
Views mentioned in this book is not any exception
namely can be up to 100 % wrong.**

((((((((O)))))))(((((((((O)))))))

- 4 . A Thought – Matter**
- 4. B Related to quantum physics**
- 4. C From denying the Absolute to Evolution**

Other Points before

Innovation and Creation

A. Glassblower and innovating a Glass

Like in the case a **Glassblower** and innovation of a glass

Glassblower **non physical** Will, wants make a glass for drinking water = W

Glass has a **non physical**“value“ therefore it is wanted, = V

Glass has **non physical** laws, are used in making the glass = L

Glass its non physical mathematics which are used in size of the glass = M

Glass has its non physical structure, materialized in Physical structure = S

Glass has its non physical function, physicalized in Its physical function = F

Glass has its non physical, glass blowing technology in its production = T

Glass has its non physical production aim Materialized in using it in practice. = A.

.....

Different sections in making the glass

- I. All of these WVLMSFTA as soft ware are non physical thoughts, By using them the glass - blower **Converts** and gives form to them **in physical glass**, for drinking water.
- II. Glass- blower properties or applications (born with everybody) by using among others, innovation and TAVDA property, leads the whole converting process.
- III. Physical glass as “ matter” is used for making this water drinking glass.

Thereby,

the physical Glass is constructed with,

/ Non physical essence (WVLMSFTA etc. or soft ware and

/ Non physical properties of the innovator
Like “ innovation” property and
through

/ the **non physical personality** of the innovator
by using,

/ own physical body,

/ essence or soft ware of glass,

// own properties or applications.

.....

Now we come back to the Matter and the whole universe. like the case of innovation

The matter and the whole universe is

/ constructed,

/ given function and

/ leads by MEP or the Creator.

In other words,

The physical matter and universe **construction,**
are prove for

/ materialized or converted form of the non physical essence of atom and universe.

/ Their different functions are proves for existence of different non physical properties, like the (TAVDA etc.)

.....

Like the case of innovation in which, construction of

the glass (and all innovated means) was a prove for existence of an innovator or constructor,

construction of the universe is an **undeniable prove** for existence of

a non physical Creator, Namely,

MEP

or Main Essence and Property of the universe.

.....

Because, the universe is not even aware about its

own existence. this unawareness is again an undeniable, prove for existence of the Creator.

The cause that, essence and property are used in singular form in the case of MEP

, is this point that, the whole universe is one universe, Even in case of different universes, all of them together are one universe.

.....

**B.. Matter and Energy themselves
(because of not having any TAVDA
and DCD properties) never has been
the cause of any change in the universe.**

C. Can any non-physical being, as Creator

affect in the physical matter

(**from outside the matter**) and play any

role in the creation of the physical universe ?

The answer of the many researchers is “ NO”.

but in this study, answer is “ Yes” among others in following cases

.....

**Related to : / Non physical affecting
/ from outside the matter
/ in the matter and
Making aimed physical changes**

**A. Non physical “ affecting property “ and
its affecting in human physical brain**

Affecting Process

Non physical personality of every individual, by

1. Using non material “ thinking “ property thinks to do something, ex. talking. by
2. by Using non material decision making Makes a decision ex. talking . by
3. Using non material “ affecting property,
4. brain affects in non material talking property or application of the brain which
5. Affects in physical organ of talking and there after
6. non physical personality’s , talks physically .

**Thereby, physical talking is
result of 5 non physical acts.**

((((((((((((((O))))))))))))))))((((((((((((((O))))))))))))))))

B. Every natural creature, for example, the human being and his or her brain is, constructed with

1. **non-physical** WVLMSFTA etc. thoughts and mechanical functions which have different properties like talking, deciding etc.

At the same time,

2. **neither**, the essence or software
nor Properties or applications are aware of their existence.

Like a computer,

with unaware software (essence) and unaware properties or applications , which has a human program writer ,

in the same way, the existence of unaware essence and properties of the brain **is an undeniable** proof of the existence of their **program writer**, namely the absolute DCDer or the MEP,

which means **not only**, the universe, is constructed by non-physical essence

even the universe is led by a Non-Physical MEP.

C. All human activities,

are the results of people's non-physical thoughts on different subjects like, study and research, different jobs, sporting etc.

every act starts with, a“ thought about a **non physical thought**” related to the aimed act.

(except in the case of people with intellectual problems.)

D. Human innovations are material - izations of thoughts in the related innovated means. for example, the innovation of the car, mobile, etc.in which

/ the Physical Car is the materialized form of the **non-physical** “ thought” of the car.

/ the Physical Mobile is the materialized form of the **non-physical** “ thought “ of the mobile etc.

E. Creatures in the Creation

As it has been developed, the whole universe (including the human before her or his “awareness” property (application) starts to function) are unaware of their own existence.

every creature is the materialized or converted form of its, her, his, non-physical essence (WVLSMFTA etc.) which is and are creational thoughts.

Ultimately

the DCDer (Decider, Creator, Developer) of

the whole universe.(it, she, he)

is

the **non-physical MEP** (Main Essence and Property)or

the Absolute Thought of the whole universe

/ which is 100 % of all natural scientific laws of physics, chemistry, biology, etc..

/ by which the universe, is constructed and functions.

.....

Testability and Practicability of these views,

is again

Existing, Functioning but
unaware universe .

Falsification of the view,

Proving that the universe does not exists,

The point which is not possible,

Because the falsifier who want prove that

The universe does not exist,
First falsifier of her or his falsifying view

Is his or her own “ existence”

Which proves that,

In the same way that,

Without any doubt , falsifier is existing,

In the same way

The universe is existing.

((((((((O)))))))(((((((((O)))))))))

4. A Thought – Matter

Materialization of the Thought
(converting non-physical thought to physical matter
)and
Thought - ization of the Matter

(converting physical matter to non-physical
thought).

The consisting parts of the Universe

related to matter and non-matter

4.A.1 What does the Universe consist of ?

Related to Non-Matter and Matter

4.A.2 What is thought

4.A.3 What is the Matter ?

4.A.4 Gravity,

Contrasted Gravity

4.A.5 MFPP or Matter Feeling Property

physics

4.A.6 The Material - ization of Thought and Thought - ization of the Matter

4.A.7 How does the universe exist and function but is not aware of its own existence ?

.....

4. A Thought – Matter

Material - ization of the Thought
(converting non-physical thought to physical
matter)and

Thought - ization of the Matter
(converting physical matter to non-physical
thought).

**The consisting parts of the Universe
related to matter and non-matter**

.....

4.A.1 What does the Universe consist of ?

Related to Non-Matter and Matter

As it has been shown (related to the matter and non
–matter) in the following picture consisting parts of
the human body and the Universe are,

1. The Non-Physical MEP or the Main Essence
and Property or the

Creator who is the absolute **natural** science of the universe.

2. The Non-physical essence WVLSMFTA etc. or software of the creatures and the universe by which all natural creatures are constructed
3. The Non-Physical properties (applications) by

which
natural creatures have their different functions.
4. The Physical Universe , etc. (**etc. is for beings
which are existing and human is not aware of
them**)

thereby, the views like
these views that at the last hand, the
universe consists of only matter or
only energy, are not right.

))

4.A.2 What is thought

In this study

**Every non-physical concept,
Every non-physical view,
Every understanding etc.**

about something is non-matter, thereby thought,
like the different dimensions of the WVLMSFTA
etc.

Thought has not any physical body,

In the case of the human as a DCDer,

Thoughts become materialized, in dif-
ferent physical activities and in differ-
ent innovations and thereby,
thoughts get their physical place by **togetherness**
with

different acts or different, innovations.for example,
the idea of “ clothing yourself” or innovating a Mo-
bile,

before these happening are only thought,
they are not the physical part of the brain, but,
by clothing yourself and innovating the Mobile,
the thought of wearing cloth,
takes place in your body and
the thought of “ innovating” a mobile,
takes place in a physically innovated mobile.

**In the case of the MEP as the DCDer of the uni-
verse,**

**the whole universe is a materialized form of the
MEP as the absolute thought.** The MEP as a non-
physical being has no physical place, but by the
property of the materialization of thoughts, the MEP
gives a physical body to the thought in the universe
but, at the same time,
is with the natural creatures, with **togetherness**, with
“materialized thoughts “ in the form of different
creatures..

What is Absolute thought ?

The Absolute thought or intellect of the universe in
this study

100 % of all natural sciences, by which

The universe is constructed and func-

tions.

Because of being 100 % is absolute. .

**A. Non physical thought of the universe
in Zoom in position**

**B. Non physical thought of the universe
in Zoom out position**

((non-physical thought)-correction in the picture)

The lines from A to B have not ended in circles,
this means that there are unknown universes.

**Number 1 , As point “ A” or the Absolute
thought or MEP is**

The Main NS Essence and Property, or software and
the applications of the whole existing universe.

1. the Absolute Thought of the universe in zoom - in
position.
2. yet unknown **pre**-quark , material beings.
3. atom
4. first living cell
5. insects
6. birds
7. animals,
8. the human being
9. endless (for the human being) but one Creation
thought of all other existing planets, universes etc.
beyond the earth.

**The Absolute Thought or thought of all universes,
has no physical place, even in a zero point level
but**

by physicalizing and giving the physical body to the
thoughts,
they become all existing physical universes in which
is the **MEP** or Main Essence and Property,
who leads all universes

(except with the thinking-brain-having creatures' activities)

As the **MER** or Main Empirical Reality,
this shows that man-made empirical realities are
right or wrong,
all human intellectual, physical, social diseases and
problems and damages in the nature, they are the
signs of this point that, humanity is not going the
MER'S or
the Main Empirical Reality's way.
She or he is on wrong way.

.....

The testability and practicability of
this view is the undeniable.
Existing NS Universe and
its non-physical essence and property.

.....

4.A.3 What is the Matter ?

**Everything, touchable by five senses, even with
microscope, telescope etc.**

Including wave, particle, heat, light, not discovered

beings, down to zero – matter level. Are material

or physical, made of matter.

In this study,

Everything with a physical body, is “matter” and material. this begins from,

- 1. The Pre Zero level**, in which, there is only the “Absolute Thought”
- 2. The Zero level** in this level, there is **only “thought “ of the “physical creation”**
- 3. The Post-Zero level** in this level the Creatures, **from** not discovered pre quark **beings** **to** particles, atoms, cells and the whole universe are **physical beings.**

In this study,

without any doubt, there are non-physical beings but the human can't see or touch them by the existing means like microscopes.

The non-physical thought or essence (WVLMSFTA etc.) of every natural being **gets a material body** **through** the MEP's “materializing thought property to matter

or converting thought to matter, property or application.

The atom and generally matter, because of,

not having, among others ,TAVDA (Thinking, Awareness, Volition, Deciding and Acting) properties, **Or being** TAVDA

again **Not only** do not play any DCDer role in their activities,

they are even unaware of their own existence,

At the last hand, the physical universe consists of

1 **The non-physical essence,**

2.non physical properties or applications
of the creatures and

3. **The physical or material** body of the creatures.

4. MEP as the Main Essence and Property of the universe.

In other words

Essence and properties of the creatures are

/ A **copy** of this MEP and

/ their Physicalized forms are

A **converted copy** form of their non physical

thoughts.

4.A.4 Gravity

Among others, It is said that, gravity is

1. *An attractive force, which attracts two objects to each other.*
2. *Everything which has mass, has this force,*
3. *The more massive an object is, the stronger its gravitational force is*
4. *The earth gravity is what keeps people on the earth.*

Source : Internet

Based on the mentioned points, specially the third one that

The more massive an object is, the stronger its gravitational force is.

A. Inside distance and outside distance

There are both inner distance between Particles of an atom and outer distance between atoms etc..

Based on this point that,

The earth is the **absolute most massive** being in the earth area,

its gravity and attraction power should be highest in this area.

B. Comparing different creature's gravity power

Almost the mass of a particles of an atom, a cell, a plant, an insect, a bird an animal, a human and all of them together **are not comparable** with the mass of the earth.

Now

if the gravity attraction of the earth's is so strong,

a. In the case of the particle and the atom

any physical **separation** between particles of atoms and

between atoms would not be possible and as a results,

there should not exist any particle or atom. Because The gravity attraction of the earth, would not give any chance to particles and atoms for separating themselves from the earth and acting with atom and atoms with other atoms.

b. Cells

It is the same with insects, with

plants, birds, animals and the human in which

the gravity of the earth specially.

The more massive an object is, the

of the particles and atoms with almost zero mass compared with the earth's almost unaccountable mass,

is nothing less than this point that
there is not any gravity..

II. The plants universe

- a. **The plants' upwards growth** from the surface of the earth and their **roots'**
- b. **downwards growth** inside the earth is nothing less than this point that
there is not any gravity.

III. Birds, animals, the human being.

Birds , animals and human existence and movement

in the air and on the earth, is nothing less this point
that there is not any gravity.

Sum :

all movements inside, on the surface and above the earth,

are sign of this point that **there is not any Gravity,**

Because if we take, among others, this law of the gravity that,

The more massive an object is, the stronger its gravitational force is,

This huge “ **Massive Attraction**“ would not give any moving chance to beings “ lighter “ than itself.

((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

IV. Apple and apple tree

1. An apple
2. The tree’s body, from the surface of the earth **upwards**
3. The roots of the tree, from the surface of the earth, **downwards**

((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))
))))

1. An apple

If we take the apple’s fall as a Gravity function,

2. The upwards growth of the tree

Despite the tree is on the earth and despite the earth has the highest gravity power,

the growth of the tree upwards means ,neutralization of the earth’s gravity (if it is existing).

Now, if we relate this neutralization to the Mass of the tree and the earth,

We can say in this case that there is not any gravity force because,

If there was any gravity force,
the tree could not grow upwards.

It is the same in the opposite movement, namely
the movement of the roots of the tree, inside the
earth **downwards,**

this downwards movement like the upwards move-
ment,

proves that there is not any force called “ gravity
again because,

if there was any gravity force,
this force would not give any chance to the “ root”
firstly being created and secondly moving down-
wards.

If we accept the existence of gravity,

the creation of the tree and its movement
downwards inside the earth and its move-
ment upwards above the earth, means

that, **either there is not any gravity,**
or the gravity of the earth is weaker than the
growth power
of the tree upwards and downwards.

Based

on this point that the **size of tree** is not comparable
with the **size of the earth** in largeness,

we can't say that the gravity of the earth is weaker
than

the “ growth power “ of the tree.

Thereby

The result is this point that

There is not any gravity.

))))))))))(((((((O)))))))))

Another ex.

The flight of a Butterfly and a Swallow,

The physical largeness of a Butterfly
and a Swallow is not comparable,

when they fly, this means that they neutralize the
gravity attraction of the earth (if there is any gravity
).

But an undeniable point in this example is this point
that,

the view of,

*The more massive an object is, the stronger its
force is.*

is nothing less than being wrong.

))))))))))(((((((O)))))))))

Contrasted gravity

One more point related gravity

The Earth and the Oceans, people and all other creatures above the earth

The earth and the gravity

For making this point more understandable, you can imagine a ball which is round and circular and

moves from the top of the North Pole, to the middle Equator and to the lowest point as the South Pole. Like picture above .

If the earth is round and circular,

In the Northern half part of the Earth namely, from the North Pole to the Equator,

/ People are on the **surface** of the earth with the Earth **under** their feet.

But from the Equator to the South Pole, / people are above the surface, they don't have the Earth under their feet for keeping them on the Earth,

The Earth is **above** the soles of their feet, this is a condition for

.....

falling down, or case of " **contrasted gravity**" not towards the earth, rather, for **falling down, for going away from the earth.**

.....

Two questions here,

1. if there is not any gravity, how can the human remain on the Earth, despite, not having the

Earth under his or her feet in the southern part?
and

2. in daily life, the human feels herself and himself on the Earth both in the Northern part and in the Southern part.

If the earth is circular like a ball,
people **should not** have the same feeling in both
the Northern part and in the Southern parts
because as mentioned before,

/ people have the Earth under their feet in
the Northern part and
/ the earth above the soles of their feet in
the Southern part.

This negation of Gravity is the beginning for many
other questions. And answers

For example,

First two answers to this questions are,

1. Perhaps, the earth is not like a ball , be-
cause, people all around

the world, (in north pole, equator, south pole,
east and west etc.,)

Find themselves on the earth, they move, live etc. on
the earth.

2. If there is not any gravity and if the earth is like a

ball,
It should be other laws which keep
the water and fishes of oceans inside the oceans ,
people
and other creatures on the earth
in the southern “ half part”.

Sum , gravity

According to this study,

**Neither, the sun, nor the earth has
TAVDA and thereby, what happens by them, they
are not aware about them thereby,**

1. Creature are constructed by their
(WVLSMFTA etc.) and
2. They function by properties given
them and
3. It is MEP who

As constructor and function giver,
leads activities of the Universe.
(except TAVDA having creatures’ activities,
like human).

((((((((((((((((((O))))))))))))))))((((((((((((((((((O))))))))))))))))))))

4.A.5 MFPP or “ Matter Feeling Property” physics

- As it has been mentioned,
related to TAVDA, the creatures are two groups,
- A. The creatures **with** TAVDA who can think,
decide and act.
 - B. The creatures **without** TAVDA which can't think,
can't decide and can't act.

I. The existential cause of the matter is the MFP , Matter Feeling Property Related to the matter and non-matter.

- The start point for the
materialization of thought or giving the physical
body to the thought.
- A. in the **natural** scientific empirical reality
is the MEP who by the materialisation property or
application, gives the physical body to the “ non-
physical thought “ or idea, and,
 - B. in the case of the **human being**,
by the MFP, the Matter Feeling Property or applica-
tion,
the human feels non-physical “
thought” in a physicalized form.

How ?

- In the same way that**
the human by the **seeing property** can see
by the **hearing property**, can hear,

by the **thinking property** can think,
In the same way
human, by the **MFP**, the Matter Feeling Property
(application), can feel the non-physical essence of
the natural creatures
in their physical forms. **For example**,
the non-material **essence of** the atom, cell, sun, etc.as
their non-physical thought or software,
gets a physical body
by the MFP and becomes,
the physical “matter” the physical cell, the physical
sun etc.
for the human being.

((O))))))))))))))))))))))))))))))))))))))

Without this MFP, the atom, cell, human, and
universe,
Would exist only in the form of WVLMSFTA etc.
and the properties of them or their thoughts.

((O))))))))))))))))))))))))))))))))))))))

II MFP mechanics, in the MFP physics,
For being any kind of DCDer
(Decider, Creator, Developer)

The being should have TAVDA etc. or

**thinking, awareness, volition, deciding, acting
properties**

In this relationship, the natural creatures are two
groups,

1. Creatures **with** TAVDA,

This group, can think, decide and act,

This group can be DCDeR in their “creation given”
level.

2. Creatures **without** TAVDA

this group, can't think, can't decide, can't act,
thereby they are not any DCDeR in the con-
struction and function of the universe.

**Even the human at the birth time is not aware of
her and his existence.** thereby,

In the construction and function of the natural uni-
verse,

Neither the physical universe,

Nor the non-physical, essence and property

universes

Not even, the human has played any DCDeR role,

all of them are different means for the MEP in

presenting (its, her, his) own ideas, thoughts, views to other brain-having creatures like the human.

**The functional mechanic of the MFP physics
universe,**

1. Deterministic

Creatures **without** TAVDA etc. their function is “deterministic “ they don’t play any DCD er role in creation

2. Self-choosing Creature **with** TAVDA etc. like

The human being, they have TAVDA etc.

properties. they have the freedom of using TAVDA etc. properties as humanity has done in human history thereby, the human universe in the creation, is **self-choosing**.

But this self-choosing, can be in two main ways,

A. Choosing the human’s own man-made

WVLMSFTA etc. and establishing the
man-made world and universe or

B. Trying, to know the natural WVLMSFTA etc. and

a copy of the Main Empirical Reality, the MEP materialized or given physical body relates to its own ideas in the form of different creatures
through the MEP'S "materialization property"
for making the NS content of every creature,
both intellectually and physically more touchable
for the human being.

How does this materialization happen?

An example : The conversation between two
Persons

The Talker and The Hearer

Someone has the "thought " of talking to
another person.

A.. She or he as talker

/ materializes the "**non-physical** " content of the "
thought" for example informing, the hearer about
her or his journey
/ by using the materialisation property of the brain,
/ through **physicalizing** of the idea or thought in the
physical voice.

B.. He or she as hearer

/ receives the "physical voice" and her or his brain
(here should be emphasized that the brain functions
with its own nonphysical essence or bio. Software

and applications)
/ converts the physical voice
into the “ non-physical “ thought” or message
as content of the voice, for example about a journey.
/ by the “ thought- ization” property of the brain.

In this process,

In the case of the speaker

/ the “ non-physical” thought or idea of the journey
/ is materialized by the talker’s brain’s “ materializa-
tion property “ in the physical voice.

In the case of the hearer

/ the hearer has got the physicalized thought in
the physical voice and then
/ converts it

by the “ thought- ization “ property,
to the non-physical message, namely
the idea or thought of a journey. Again

I. in the case of MEP or the Creator

In the same way that,

the MEP has written,
the materialization and thought- ization pro-
gram of the human brain,
by which every individual,
materializes his or her own non-physical thoughts
in different activities,

In the same way

The Creator, by using the same materializing
property or application as the absolute materializer
materializes immediately ,
every being is aimed.

will of creating atom, cell, human being etc.
is = with immediate creation
of them.

This immediately is because of

- A. the MEP is absolute TAVDA & DCD
- B. materialization is by property

.....

II. In the case of the human being

In the same way that,

by the seeing **property or application**, we can see,
by, the hearing property, we can hear etc.

In the same way,

by the MFP, we can feel
the non – material software of the creatures in the
universe, in their physical forms. **For example**,
the non-material **essence of** the atom, cell, sun, etc.

as

their non-physical thought and software
first get the physical body by the Materialization
property and
second the human **feels** this materialized thing
in the physical form by the MFP,

))))))))))))))))))))))))))))))))))))))((((((((((((((((((((((((((((((((((((
((((((((((((((((((((((((((((((((((((O))

.....

4. B Related to quantum physics

4.B. 1 Quantum as smallest part

**4.B.2 Basic points related to
the quantum theory, physics, mechanics**

4. B.3 Universe related to

TAVDA & DCD

4.B.4 uncertainty principle

4.B.5 Irrelevance of

Uncertainty, probability, indeterminism

And randomness to

Physical function of the particles and

universe.

4. B.6 Four forces

**4.B.7 Different dimensions of the empirical
reality**

Related to Matter – non matter

- 4. B.8 **Researcher or observer**
- 4.B. 9 **Choosing way of research and study**

.....

4. B. Related to quantum reality

Natural scientific studies

**The “Main “ Natural sciences and
The “ Main” natural scientific studies**

The whole universe including particles, are created

- a. Without any human help and
- b. Without any man made innovated means,

.....

(here aim of two withouts is not

Without human engagement, It is rather, human
interference, in “ natural scientific function”

of the natural beings by

/ man made (WVLMSFTA etc.) will,

value, law, mathematics structure, function,
technology, aim etc.)and

/ man made means among others like

- Double - slit experiment, in quantum mechanics
- CERN activities,

-- researches in hospitals with man made
intellectual and physical means.

Otherwise, **Every** human being should take part in
Searches and studies for her and his
general natural scientific development.

.....

thereby

So long studies, are not

/ without man made intellectual

WVLSMFTA etc. and

/ without man made innovated means,

They are not “ Main natural scientific studies “

Like man made double slit experiment,

CERN activities etc. with different man made means

Thereby,

**Quantum reality which is “ made by “
researcher is not**

**the” main natural scientific reality “ and
thereby,**

natural scientifically is wrong reality.

.....

1. Related means used in experiment

/ Electron beam gun

/ double slit

/ interference pattern

/ screen etc.

These means do not belong to the Main NS empirical reality without any man made means.

Thereby, the experiment **is a man made** so called natural scientific experiment and thereby

not main natural scientifically.

2.. Related to wave – particle duality

and Probabilistic in quantum mechanics

A. In functional mechanic of every being for example,

Wave, particle etc. they should have

TAVDA properties for being any kind of DCDer, but

not only they don't have any of mentioned properties for their **functional mechanics**,

Even they are not at least aware of their own existence

B. The DCDer in functional mechanics of

the universe is

The Main and Absolute TAWDA etc. who is

Absolute DCDer in function of

Wave, particle and the whole universe (except in man made activities like this double slit experiment)

Without any place for uncertainty, probability etc.

.....

Practicability,

Existing, functioning but unaware universe about its own existence.

.....

Chapter 5 in the book is about societies

/ without any man made

non physical WVLMSFTA etc. and

/ without any man made innovated physical means.

Chapter 6 in the book is about societies both

Without man makes and

Without human body's and

Without physical universe,

Based on

Non physical Essence or WVLSMFTA etc.

Of every natural being

.....

4.B.1 Quantum as smallest part

In the same way that,

Once before, atom was thought as
The smallest part in the creation,
But later discovered, electron, neutron,
Proton and lately quark etc.

In the same way,

Quarks and others are not smallest
parts of the creation.

like the case of atom,

Being **smaller than quarks** down to
Zero matter (thought of matter with-
out physical body) will be discovered.

.....

**4.B.2 Basic points related to
the quantum theory, physics, mechanics**

First point

**The “Main “ Natural sciences and
The “ Main” natural scientific studies**

Again the whole universe including particles, are created

- a. Without any human help and
- b. Without any man made innovations means,

Because,

The whole universe (including human being)

Has been existed, even **before** human being
Becomes aware of her or his own body's and
Universe's existence.

As it has been mentioned in the points

Cuttings and connectings,

There are endless activities inside human body and
the nature which are not done by
human being or nature itself.

Thereby

In the same way that

Human body and nature have endless
cutting and connecting activities by
taking away or adding new needed
mean
or giving life or tacking life,
without any human help or
without any man made means,

in the same way

human being can search and study and live
without any man made means.

thereby

So long studies, are not

/ without man made WVLMSTFA etc. and
/ without man made means.

Are not the “**Main**” natural scientific studies,
these points are developed in chapters 3, 4, 5, 6.

.....

4. B.3 Universe related to

TAVDA & DCD

With any theoretical definition and physical
experiment

/ wave - particle,

/ uncertainty

/ superposition etc.

Neither theoretical part,

Nor physical experimental parts of them

Has TAVDA for having possibility of being

Any kind of DCD er

Or decider, creator, developer.

Because of not having not having these 8 properties,

Wave, particle, superposition, uncertainty,

randomness etc.

Not only they don't play any deciding and acting role in the micro or macro level of the universe,

They are not even at least aware of their own existence in the universe.

But again at the last hand

Quantum WVLSMFTA etc. are not

natural scientific WVLSMFTA etc.

because

starting points of quantum essence theory

is based on man made

randomness uncertainty, probability, superposition etc.

points which are not natural scientific.

/ **The absolute** and **Main WVLSMFTA** etc.

/ who is the **Main TAVDA** of the universe and

/ the **Main DCD** er or decider, creator, developer

Of the universe leads the universe

- / without any random,
- / without any uncertainty,
- / without any probability,
- / without any superposition etc.

Both in micro and macro levels,

(except TAVDA having beings activities).

.....

Practicability

of these views is

existing, functioning, but unaware universe.

Falsification

Falsifiers should prove that

The universe “ will “ not function

/ without human help and

/ without man made WVLMSFTA etc.

Not only this falsification is impossible

Even human paralyzed life in 2020 is an undeniable proof for

Falseness and not being natural scientific of the

man made WVLSMFTA etc. based on randomness, uncertainty, probability, superposition etc.

4.B.4 Uncertainty principle

I. The famous Flip a Coin and uncertainty

Two parts in the case of coin,

The coin, does not play any deciding role in this ex. It is not even aware of its own existence.

In the same way that,

1. **different kind of gymnasts,**
 in gymnastic

/ **in opposite** way of uncertainty and

/ **without thinking to probability**

at all and

/ with **deterministic position**

jumps up and after rotation in the air

lands by feet on the earth, as he or she

/ had been determined, or

- 2. In sending a satellite** for ex. to the moon,
Researchers by mathematical etc. ac-
countings,

Send a satellite with its all weight to
the moon and land it on the moon

In the same way,

Can human being with some mathematical

Accountings flip a coin and

Land it on the earth

not only without any Uncertainty, even

decided and determined in

/ this side

/ that side or

/ edge of the coin

Thereby,

This uncertainty and unpredictability

is for those who need this view,

Otherwise again like the case of, gymnasts, and satellites with mathematical accounts,

can coin without any doubt land on the earth as it is decided and predicted by the person who use the coin.

In both of these examples,

Starting point is not uncertainty unpredictability and probability

Starting point

is certainty predictability and determined for success.

.....

II.. Logical Paradox of the uncertainty,

When somebody talks with “certainty” about validity of “uncertainty” and determine that,

uncertainty is a “ right view”,
he or she, determines **with certainty**, that,
Uncertainty is a right view.

This determining by certainty,

First of all

negates uncertainty and probability and
becomes **a paradox which negates** or
falsifies

uncertainty, probability, and

proves correctness of

“ certainty, predictability

something he or she rejects..

.....

III. Physical functional paradox of uncertainty

As it has been developed

Except TAVDA property etc. having beings like

Human being, animals, birds ..

Remainder of the universe do not have any TAVDA

Or thinking, awareness, volition, deciding and acting properties and thereby

This part of the universe

/ can't think,

/ can't become aware,

/ has no volition,

/ can't decide,

/ can't act

And lastly,

Main part of the universe is not aware of

Its own existence,

Thereby,

A. views like uncertainty, probability, indeterminism, random etc.

are not valid for this unaware universe

both in micro and macro levels

At the same time,

B. This unaware universe,

is existing and functioning. This

/ unaware existing and

/ unaware functioning of the universe is ,

an undeniable prove for existence of a DCD er

or decider, creator, developer Who,

/ has constructed,

/ given function and

/ leads the universe (except activities of

TAVDA having beings).

This DCDer is named in this study

as MEP or the Main Essence and Property who is

100 % of all physics, chemistry, biology,

Mathematics, technology etc.

Non physical sciences.

This being 100 % percent means absolute,

Thereby,

In the absolute universe,

There is not any place for

Uncertainty, unpredictability, random etc.

.....

IV. Human being related to

Uncertainty, unpredictability, randomness

Based on this point that

/ not only everybody even

/ all humanity together are

both intellectually and physically “ relative”,

In this relativity,

They can be certain or uncertain,

They can think, predictable and unpredictable,

They can be determinist or indeterminist

They can base creation on randomness or
determinism

Etc. in their

Intellectual WVLSFTA and

Physical WVLMSFTA etc.

Thereby

Uncertainty, unpredictability, randomness etc.

Is related to human being. in both

Micro and Macro levels of the universe

There is not any place for

uncertainty, probability, randomness etc.

In this relativity

According to this study,

The way to go is

Discovering WVLMSFTA etc. of every natural
being

And thinking, acting and living according to them.

thereby,

innovations no matter intellectual or physical

are man made and not natural scientific.

Result of this irrelevance is,

/ can't become aware,

/ has no volition,

/ can't decide,

/ can't act

And lastly,

Main part of the universe is not aware of

Its own existence,

Thereby,

views like uncertainty, probability,
indeterminism, random etc.

are not valid for this unaware universe both

in micro and macro levels.

(again uncertainty, probability, indeterminism, .

Randomness are valid in the case of human

And other TAVDA having beings)

At the same time,

This unaware universe, is existing and functioning.
this

/ unaware existing and

/ unaware functioning ,

is an undeniable prove for existence of a

DCDer ,

Decider, creator, developer Who,

/ has constructed,

/ given function and

/ leads the universe (except activities of TAVDA
having beings).

This DCDer is named in this study MEP or
the **Main Essence and Property**

Of the universe.

.....

4.B. 6 Uncertainty – probability, randomness

Related to

The five different empirical realities

I. Man made false empirical reality

By man made WVLSMFTA etc.

- A. Based on intellectual and physical
relativity of
Human and
- B. Based on all human
Intellectual, physical, social, environ-
mental problems and diseases like
covid – 19 and problems in 2020

As result of man made false WVLSMFTA etc.

This study names this reality as

Non – natural scientific reality and

Thereby

False empirical reality.

In this false empirical reality,

Researchers can be uncertain- take
probabilities

And base their reasoning on random-
ness.

But this uncertainty, probability, randomness,
is not valid for the main natural scien-
tific empirical reality,

In which

The non physical essence WVLSMFTA etc. and
The non physical properties TAVDA & DCD
are absolute,

Thereby

Empirical reality created by them is

/ absolute certain

/ without any probability,

/ without any randomness etc.

II. **Second empirical reality**

Development dynamic or
actual empirical reality

Man made empirical reality innovated by
Man made WVLMSFTA and TAVDA etc.

Is changed by the
Development dynamic as
“ actual empirical reality”

Towards

The natural scientific reality.

Like case of man made empirical reality in 2020

In which

For avoiding man made damages,
some of researchers try to understand,
Human body's and nature's
WVLMSFTA ,
Foe following them and
Avoid man made WVLMSFTA etc.

III. **Relative** empirical reality,

**Natural scientific reality without man made
WVLMSFTA etc. and empirical realities.**

Development dynamic will leave behind present be-
hind present man made societies and will enter to the
natural scientific societies

In which

There will not be any man made

WVMSFTA or TAVDA and DCD.

.....

**Based on human intellectual
relativity (NSR),**

Understanding this NS reality will be “ relative .“.

.....

Related to uncertainty, probability, randomness

/ related to uncertainty,

Existence of the NS reality is absolute
Without any uncertainty

/ related to probability,

Based on this point that
All activities of that part of the universe which has
not TAVDA etc. for being any DCDer,
are made by

**Absolute TAVDA etc. of the universe,
therefore
there is not any place for probability.**

/ Randomness

- As it has been developed
- a. **TAVDA & DCDer and**
 - b. **Constructor of the WVMSFTA etc. of**

the universe is an absolute being,

Thereby

What happens is an absolute natural scientific act,

Thereby

There is not any place for randomness.

Hereby

If somebody searches for finding

natural scientific answers,

her or his findings are “ relative “

Not, uncertain,

not probable and

not random based.

.....

IV. Natural **scientific** empirical reality

This empirical reality of physical universe as

It is in reality without human intellectual and

physical

(WVLSMFTA etc. innovations.

This reality is

Converted form of the non physical WVLSMFTA

etc.

Of the universe thoughts

With, absolute certainty

Without absolutely any probability

Without absolutely any randomness.

In which

There is no place for any

uncertainty, probability, randomness etc.

.....

V. MER or the Main Empirical reality

The **Non physical** natural scientific empirical reality

is the non physical WVLMSFTA etc. of the universe

which has been existed before creation of the physical universe.

Based of this point that MER is MEP's non physical WVLMSFTA etc. of the known and un known

Parts of the universe,

is 100 % of all sciences by which the universe is constructed and functions,

is an absolute being, thereby,

there is not any place for

uncertainty, probability, randomness in

(its, her, his) creation and reality.

Related to determinism and indeterminism

In this relation, natural scientific beings are two groups,

- 1.. Creatures without TAVDA & DCD and
2. Creatures with TAVDA & DCD. properties or applications

First group

As it has been developed, first group, because of not

having TAVDA & DCD,
/ not only is not any DCDer,
/ is not even aware of its own existence.
DDer of this part of universe is MEP
who is
Absolut TAVDA etc. of the universe
Who is the absolute DCDer,
With absolute accuracy, absolute carefulness, and
absolute exactness,
without any place for uncertainty,
Probability and randomness.

This absoluteness

Means absolute determinism for this part of the
Universe.

Second group

This group, human, animals, birds etc.
Because of having TAVDA & DCD properties
Or applications,
In their intellectual and physical relativity can they
Think, become aware, use volition property,
make decision and act.
Thereby,

Their activity area (not outside that)
is in - deterministic as it has been in all hu-
man history in which
all human nutrition, political, economic, social,
technological, environmental etc. ac-
tivities has been done by human being.

In this process,

MEP **shows result** of all human activities
in nutrition, political, economic, social, tech-
nological, environmental etc. diseases
and problems in human body, society and nature.

By this showing, MEP plays “

**Guiding leadership,
not deciding or determining leadership.**

.....

4. B.7 Four forces

*There are four fundamental interactions known
to exist.*

***The gravitational and electromagnetic**
interactions which produce significant long- range
forces whose effects can be seen directly in everyday
life.*

***The strong and weak interactions** ,
which produce forces at minuscule, atomic distances
and govern nuclear interactions.(Wikipedia)*

No one of these four forces, has any of TAVDA
Properties for being able for doing
something itself.

At he same time,

/ because of not having, thinking and aware-
ness properties. these forces at least are not aware of
their own existence.

/ They are only different “ Means “ for MEP in
presenting (its. her, his) own ideas to human being.

4.B.8 Different dimensions of the empirical reality

Related to Matter – non matter

- A. **Non physical essence** (WVLMSTA etc.)
of every being,
- B. **Physical body**
Essence Converted in that beings
physical body for ex., WVLMSTFA etc.
of quark, atom, cell , universe
converted in physical, quark,
physical atom, physical cell, physical
universe
- C. Non physical properties or applications
by which
Every being has its, her, his functions in
the creation.
- D. MEP or the Main Essence and property of
the universe who is DCDer or Decider,
Creator, Developer of the universe. (
except activities of
TAVDA having beings like human being
).

Thereby,

Claims that, the universe is consisted only of
Wave – particle, is wrong

4. B.9 **Researcher or observer**

a. first of all existence of

the whole universe, including observer which,
(before he or she begins her or his observation)

has been existed “ before “ observer
becomes aware of her or his own existence,

In addition,

Observer’s five senses by which she or
he get different physical signals,

Is another undeniable reason for existence of
Universe Outside the observer’s brain.

Even brain of observer is another sign in falseness
of the view that,

the “ observer creates reality”

Observer can innovate different things **in micro**

Level like this “ double - slit “ both in theoretical
and physical dimensions.

These innovations are like other human innovations

/ on the earth like, house, car, mobile and

/ **in the space** like, black hole, singularity, big bang
etc.

all these innovations are

/ **random based** which means

/ baseless reasoning

/ aimless reasoning

as result of **intellectual straying**

and **going astray in the creation.**

Based on this point that,

Human being and universe

are natural scientific beings,

so long

/ studies are **not based** on
natural scientific WVLSFTA etc.
and properties
/ **has not** natural scientific aims and
/ **without** any man made means,
are not
“ main” natural scientific studies.

b. relativity of not only observer, even the whole
humanity together,
both physically and intellectually.

I.. relativity related to the universe

As it has been developed,

The whole universe including human
being in the birth time are not aware of
their own existence.

Constructor, function giver, leader of the

Universe is MEP who is

Sum of all nature's **main** physics,
chemistry, biological , mathematical,
technological, etc.

non physical WVLMSFTA etc. and properties .

MEP is 100 % of these laws which means,

Function of the universe is made 100 % ,

Without any place for

Superposition, uncertainty, probability, randomness
etc.

Again because,

Every act in the universe, even it
happens once in the history of creation,

is made by MEP or absolute science,

/ with absolute carefulness

/ with absolute accuracy

/ with absolute exactness etc.

II. Related to human being including observer.

Because of being relative both intellectually and
physically

Superposition , Uncertainty, probability, randomness
etc.

Are valid for human being, but is not end of the line,

III. It is the point for further studies

on the universe which functions

/ without any superposition,

/ without any uncertainty,

/ without any probability,

/ without any randomness etc.

Again because its constructor, function giver and
leader

Is Absolute natural sciences.

IV: The most important point for further researches

Is finding “ the “ **Main**” **natural scientific way** of
studies and leaving behind, present “ man made
natural scientific studies.

In the Main natural scientific universe

Thinking, looking, talking, acting, living

Are based on the main natural scientific
WVLMSFTA etc. without any place for man made

WVLMSFTA etc. with result of human life in 2020
with Covid – 19, different, physical intellectual,
social, environmental diseases and problems.

.....

Practicability

of the view is

existing, functioning but unaware universe

In which

/ huge number of not discovered **pre quark** beings

/ endless quarks, atoms, cells, human brain and

the whole universe are functioning

/ Without any human interference and

/ without any man made means.

Based on natural scientific WVLSMFTA etc. and properties.

.....

4.B. 10 Choosing way of research and study

In the same way that,

the universe has been created and function

,

from, not discovered pre particle universe,

to , particle, atom, cell, human brain and the universe

without any man made WVLSMFTA etc., and

In the same way that

Universe functions without any human help or any man made means

In the same way,

the creation's WVLSMFTA etc.

both physically and non – physically can natural scientifically be used and studied

without any man made means

like this study

thereby,

so long natural sciences among them physics, use man made means for presentation of the universe,

is not , the creation's

@ natural scientific physics @

which has created the universe,

without any man made means.

The sign @ , is related to this view that

Every Natural being has many known and unknown dimensions in its, her, his essence (WVLMSFTA etc.) and properties TAVDA and DCD dimensions which
Are different networks. They are together

@ general constructional network@.of
the related being.

(the second @ is used for **natural scientific network co – relation with other natural beings**
For ex. WVLMSFTA etc.)

Thereby,
basing the study only on, for example mathematics, is nothing less than going astray in the study of the both micro and macro levels of the universe.

.....

Practicability of this view

is existence of the functioning universe, which is created and functions without any human help
and without
any man made means.

Falsifying the view,
falsifiers should prove that,

the universe, does not exist something which is impossible, because, the universe is existing, no matter, if some people, reject its existence or accepts its existence.

Three basic reasoning logical points

Unimaginability

establishing natural scientific societies in which People, think, talk, act and live Natural scientific without any man made intellectual and physical means, is unimaginable, but

Undeniability

It is undeniable that, man made will, value, law, structure, function, technology, aim etc. are not natural scientific and thereby, Irrelevance to human body nature and universe which are natural scientific beings.

The only right way

Result of this irrelevance, is, all human physical, intellectual, social, environmental diseases and damages. thereby

the only right way to go is choosing natural scientific

(WVLSMFTA etc. and by them doing natural scientific decisions etc.

4.C. From denying the Absolute to Evolution

4. C. 1 Denying the existence of the Absolute

4.C. 2 Denying the “ affect “ of the non-physical being, from outside the matter in the matter.

4.C.3 Big Bang

4. C. 4 Gravity

4.C.5 Space time

4.C.6 Matter, Energy

4.C.7 $E = mc^2$

4.C. 8 Immediately creating something

4.C.9 Two important points here are

4.C.10 How does the universe created ?

4.C.11 Is the universe, dynamic or static ?

4.C.12 What about: The observer creates the reality?

4.C.13 Evolution

Natural Selection and DNA

.....

4.C. From denying the Absolute to Evolution

.....

4. C. 1 Denying the existence of the Absolute in creation,

is a paradox which

I. Falsifies the view of the rejecter, by, not being able to say, that “ Absolutely, there is no Absolute”.
thereby

II. Verifies, existence of “ Absolute “ what the denier want to deny.
thereby

**in every case, there is
an Absolute,
No matter,
If it is denied or verified.**

.....

**4.C. 2 Denying the “ affect “ of the non-physical being,
from outside the matter in the matter.**

Three different practical, non physical thought's "affect" in physical beings,

1. **Human daily activities**

In which

- a.. Non physical personality of every individual,
- b. by using non physical "affecting property"
- c. affects in non physical essence or software of different organs of the body, which
- d.. affects in physical organs of the body which leads to
- e.. physical acts of, talking, going, searching in laboratory etc.

in this way

non physical personality, by using non physical affecting property, makes different physical activities and thereby, proves that,

the claim that,

non physical being can't affect, from outside the matter and make physical changes,

is wrong.

2. **Human innovations**

All human innovations, like, spoon, car, mobile etc.

Are result of innovator's non physical thoughts in related innovation in which

/ Non physical personality of the innovator,

/ materialize or physicalize,

/ her or his non physical ideas or thoughts

about

aimed “ innovation” in

/ physical spoon, car, mobile etc.

Again in this way

Non physical personality,

From outside the matter, affects in the matter

And makes aimed innovation by

Giving physical body to her or his

Innovation ideas like

/ idea of the spoon, car, mobile etc.

In

/ physical spoon, physical car, physical mobile etc.

Thereby

Proves that

The idea which claims that,

Non physical being can't affect in the

matter and change the matter,

Is a wrong view

3. Universe and non physical Creator

As it has been developed,

Not only physical part of the creatures even

their non physical essences (WVLMSFTA etc.)

or soft wares,(by which the creatures are con-

structed,

Don't have TAVDA etc. and thereby

1. they are not even aware of their own ex-
istence (except TAVDA having creatures
like human)
2. Because of matter's “ not having “

TAVDA,
It can never be any DCDer

Now,

/ The universe is existing,
/ universe is functioning but
/ the same universe is not aware of its
existence

**Nobody can natural scientifically deny
existence of,**

A Being with TAVDA etc.
Who is DCDer of the universe
Has constructed the universe and given
Function to it. This being named in
this study MEP.

Practicability

of this view, is again
existing, functioning, but not aware universe.

Falsification

Those who rejects existence of
The non physical MEP, they should prove that

There is not any universe,
Because,

If there is an functioning but unaware universe

It must have

/ a TAVDA who has constructed and given
function

To the universe

/ who is DCDer of the universe,

the black hole, singularity, the big bang, have
Neither TAVDA properties nor applications,
Nor, seeing, hearing etc. properties.

Is this right, believing in that

the existing universe is made **by**

these man-made things which,

Absolutely can't think,

Absolutely can't be aware

Absolutely can't decide

Absolutely can't see anything,

Absolutely can't hear something, etc.

In other words,

The Universe is made **by**

“ **Absolute ignorance** “

“**absolute unawareness** “

“ **Absolute blindness** “,

“ **Absolute deafness** “, etc.

Namely the big bang.

)))))))))(((((

4. C. 4 Gravity

Sun and earth related to the gravity power

If the sun has gravity power and

If it is stronger than the earth's gravity power,

1. **The famous Apple,**

Should **not fall down** rather,

It should **move upwards towards the Sun** and

II. It should not be any move, downwards ,

All moves inside the atom, cell, and the whole universe around the sun, should be towards the sun among endless others, move of apple tree's " roots" downwards inside the earth. This move of " roots downwards,

Negates both, existence of gravity power,
in the earth and in the sun

Very short,

When the Sun

**can't attract an apple with almost
zero weight,
can never attract, the earth with
unaccountable weight.**

((((((((O)))))))(((((((((O)))))))))

There are those who say,

The cause that apple does no move towards the sun is, vacuum between the earth and sun, But

If there is a such vacuum for the apple,

it should be valid for the earth too.

Namely the vacuum

should stop, gravity between sun and earth too.

((((((((O)))))))(((((((((O))))))

4.C.5 Space time

What is time ?

In this study,

/ time is related to the “ matter “ thereby

without matter,

there is not any “ Matter related time.

(there is another, **not matter related time** for

human Non physical societies)

/ time has not any physical body

/ time has not any of TAVDA ,

or thinking, awareness, volition, deciding, acting
properties thereby

/ time **is not** any DCDer or decider, creator, devel-
oper etc.in creation and in the function of the uni-
verse.

((((((((((((((((((((((O))))))))))))))))))))))

According to this study

time is only a property among other properties, for the human . **for determining,**

the start of every act or move, its **duration** and its **end** (if the process has ended). For example,

Sending satellites etc., time is used for,

starting time, duration time and landing time in a special point like the Moon.

The Time,

Neither is an “ affecting” property

Nor has an “ affecting “ property,

For affecting in other things like space, and changing its three dimensions to four dimensions.

((((((((((((((((((((((O))))))))))))))))))))))

4.C.6 Matter, Energy

It is said that

/ the matter is nothing but an illusion

/ scientists began to recognize that

everything in the universe is made out of energy.

In this study

Related to matter and non-matter,

The Universe consists of the following
“facts” or realities

1. The Non-physical, MEP or the Main (WVLSMFTA etc.) of the universe,
2. The Non-physical Natural Scientific (WVLSMFTA etc.) of the universe,
3. The Non-physical Properties of the creatures like TAVDA in the case of the human and
4. The Physical Natural Scientific Universe.

Thereby,

matter is not an illusion, matter is a touchable fact and reality,

From

Zero matter or the thought of physical matter,

To

the not discovered pre-quark beings, and the human
(these not discovered beings are inside
Zero matter and the whole universe) and

To

the atom, cell and the whole universe.

- I.. If we accept that the human being has, among others, five senses, we can't negate the existence of the matter and claim that**

the matter is an illusion

because the functional usage of senses is related to the matter and physical universe.

**II.. Even in the case of “energy, as a property”
and thereby, as a non-physical being**

Energy is the property of something physical, for example, sun energy, is energy converted from the physical sun, Petroleum energy is converted from physical petroleum etc. claiming that

everything in the universe is made out of energy
is another illusion from those with this view.

III. Physical Energy

**Even taking physical energy, as
DCDer of the universe,**

is another mistake, because, energy is a “functional
“property for doing something. This functional
property,

has not any TAVDA and thereby, Can never
be any DCDer and thereby, it can’t be said
that

everything in the universe is made out of energy.

Energy neither “ is an “ affecting property “

Nor “ has “ any affecting property,

Thereby,

Energy itself

Never has been the cause of any act

Nor any change in the universe.

A. Related to the human being ,

Energy is used by the human being for different ac-
tivities and

B. Related to the universe,

matter and energy are the materialized form of their non-physical (WVLMSFTA etc.), which are a copy of the main essence or (WVLMSFTA etc.).

The Creator as an Absolute **non-physical** thought who constructs and gives function to the universe thereby, the function giver of physical energy is MEP. the non-physical WVLMSFTA etc. and the non-physical property of the physical energy, at the same time, the essence and property of the matter is a copy of the Main Essence and Property.

In addition,
even physical energy is **converted,**
a **form** of the “ non-physical energy”,
to a physical form of energy.

At the last hand
it is the Absolute Thought or Intellect, who is
the Main Acting Source (Not energy) of the Universe.

The practicability of this view,
is the existing, functioning , but unaware Universe

)))))))))(((((

4.C.7 $E = mc^2$

This point is taken here, in relation to those who

directly or indirectly, take the energy, mass, matter

as DCDer or Decider, Creator, Developer.

No one of E, M, C , 2 including their“

Neither is,

Nor has,

/ any thinking property,

/ any understanding property,

/ any awareness property,

/ any decision making property

/ any acting property etc.

any properties which are needed for or being an acting individual

thereby,

no one of E, M, C, 2, including their “ = “

with whatsoever definition,

not only is not and all together,

are not, any DCDer in the function of the universe,

even, they are not aware of their existence.

Based on this point that,

the universe is existing and functioning but both

/ the universe in its general form and

/ E,M,C,2, in its energy producing formula,

are not aware of their existence,

There must be a DCDer behind the functioning universe,

a DCDer, who is

the MEP, the Main Essence and Property of the universe.

((((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

Energy itself
(because of not having any TAVDA and
DCD properties)
**never has been the cause of any
change in the universe.**

((((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

4.C. 8 Immediately creating something

An example,
In the case of talker – hearer,
In the same way that
the non-physical thought of the talker is
converted immediately to the physical voice,
In the same way,
the MEP who has given
the“ materializing” property to the human,

“ as the absolute and Main thought materializer”

, materializes (its, her, his) thoughts immediately in
different creatures.

For example,
the will of creating
an atom, cell, brain **is = immediately** the

physical creation of
an atom, cell, brain etc.

((((((((((((((((O))))))))))))))))((((((((((((((((O))))))))))))))))

4.C.9 Two important points here are

I. How the universe is existing and functioning,

but is not aware of its own existence ?

it's like a computer or any man-made installation
which is functioning but is not aware of its own ex-
istence.

II. Related to the MEP leading universe but (itself, herself, himself) has not any movement.

A.....Z

Giving movement and leading, but itself, herself or
himself doesn't have any movement

1. The A. Z is without any
change, but
2. If somebody, begins from point A and continues
to point Z,

her or his eyes, head etc will move, meanwhile,
that A.... Z has not any movement,
But

It gives movement to people's eyes and heads.
It is the same in the Creation,

The MEP as the Main Essence (WVLMSFTA etc.)
and
property (application) of the universe,
is the A Z of the universe,
despite having no movement, but gives movement to
the matter and universe.

.....

4.C.10 How does the universe created ?

First an example on thought – Matter co – relation-
ship

Look at the following picture

Materialisation of thought

1. Four different thoughts or ideas

nobody knows what these thoughts are

2. Materialisation or giving physical body by text

Point

Wave

Circle

Star

3. Materialisation by picture

4. Materialisation by creating

Point , wave, circle, star as it is in the creation

1. In the first step,
Non physical thoughts about four unknown things

2. in the second step, this shows the thoughts by
Materializing or converting in the text by their

Again how is the universe created?,

I.. According to this study The non-physical MEP ,

or the Main Essence and Property

by its , her, his own

“ Materialization property” (converting, non-physical thoughts to the physical body)

the MEP gives the physical body

to (its, her, his) own different non-physical thoughts, like the thought of the atom, cell, human brain etc.

this physicalized reality is the natural scientific empirical reality (the 4th empirical reality, among the five empirical realities).

This means that,

the MEP as the Absolute Thought or Intellect

has given the physical body to the non-physical WVLSMFTA etc. of every creature by

using his, hers, its own

“ materialization property,”

which is the main materializing property,

II.. At the same time,

the MEP has given different properties to the human ,among them the MFP or Matter Feeling Property to the human, by which

It is not the non-physical essence or bio software,
It is not even the thinking property, which wills the
brain to think,
It is rather, everybody's Personality who wills and
uses the thinking property.

**The physical brain has only an “una-
ware” function in
all its activities.**

An example, in the case of the human,
**The talker – the hearer converting the properties
or materializing application,**
Somebody or some personality,
Thinks about for example, “ inviting “ her or his
friend by saying,
**“You are welcome to come to me whenever you
have time,”**

This inviting thought,
Neither is a physical part of the brain,
Nor is essence of the brain,
Not even any non-physical property of the brain,

It is “ a thought “ made by
the non-physical **Personality** of the inviter, by using
the non-physical thinking property.

The process of materialization or converting
by the non-physical converting property,

A. The talker,

The brain of the talker converts or materializes her or
his thought into the physical voice by saying, “ I in-
vite you “

(it should be mentioned here that the brain convert-
ing property is the voice. (**All are converted**
thoughts)

B. The hearer,

the hearer hears the physical voice of the invitation
and thereafter **converts** the physical voice to his or
her own non-physical content by using the thought -
ization property, namely the invitation, “I invite you
“...

Related to this, how is the creation created ?

In the same way that,

By the non-physical materializing or converting
property,

the human brain converts the **non-physical** thought

to the **physical sound** namely, the voice,

In the same way,

The MEP as, the “ converting property **giver**” to the human, and as the **Main Converter,**

converts, (its, her, his) own thoughts to the physical bodies, **For example, the thought (software) of the atom, cell, brain and universe are converted to the physical atom, cell, brain and universe.**

))))))))))))))))))))))))))((((((((((((((((((((((((((((((((
((((((((((((((((((((((((((((((((0))))))))))))))))))))))))))

The practicability of this view

In the same way that,

all human activities are

“ **thought materializing processes** “,

In the same way,

all universe activities are materializing processes of thoughts, and all natural creatures, are their materialized forms. Again for example,

the atom, cell and brain are materialized or converted forms of the thoughts of atom, cell and brain etc.

What about these huge “ processes of activities” and the point that

the MEP has no movement at all ?

Again the Creator is

A.....toZ

All the essence and properties of the universe,

1. Because of being non-physical, the Creator has

no movement and

2. Because of being 100 % of the universe sciences,

The Creator has absolute, intellect, absolute materializing property etc.

Its, her, his “ will “ is = the creation of the aimed creatures.

Again

in the same way that,

in the case of the talker, hearer, the inviting thought becomes materialized in the physical voice,

by the talker’s “ materializing” property

In the same way,

The MEP’s thought about the creatures becomes materialized in the physical creatures.

.....

4.C.11 Is the universe, dynamic or static ?

I. Beings without TAVDA etc. properties

II. Creatures with TAVDA etc.

III.. MEP or absolute TAVDA etc.

The existing known universe is perhaps at the Zero level of the absolute thought, thereby the human known universe is expanding and is dynamic. It is the same for the human,

In this study,

the creation aim of the human is her, his, intellectual, social and universe development,

towards

relative all knowerness, by learning and knowing her or his own body and the universe.

Why relative all knowerness?

because, the human, both intellectually and socially, is “relative”, thereby, she and he and all humanity together, never can be perfect.

.....

4.C.12

What about:

The observer creates the reality?

/ As it has been mentioned before, when the human

thinking and awareness properties started to function,
the whole universe, including the human, were existing, thereby

/ saying that *the observer creates the reality* is **wrong**

(the observer can create only the man-made false empirical reality.)

.....

The human being as related to the five different empirical realities,

Five different empirical realities

1. False empirical reality

The existing societies with un - natural (WVLSMFTA etc.)

/ but people more and more are thinking of getting a healthy life for themselves and for nature too,

/ by using human intellectual development dynamics and unnatural innovations more and more will be replaced with natural ones.

Now if we relate to this view *the observer creates the reality* ,
to the five empirical realities, the results will be,

Related to the MER, it has existed even before everybody's creation,

Related to the NS empirical reality, this one too has existed before everybody's creation,

Related to the Relative empirical reality, this is what the human understands from his or her own body, nature and the universe. In this reality, there are those who change the empirical reality of the human and nature and

Because of the human "intellectual relativity," all her or his views are "relative" thereby they can be even up to 100 % wrong.

Related to the actual empirical reality,

In this case, this reality's "development dynamic", changes the observer's or others' wrong views and replaces them with natural scientific ones,

Related to the false empirical reality, **this is the second empirical reality** which is innovated and created by the human as observer, social researcher or as an ordinary person.

At the last hand,

The observer's innovations and creations, because of not being compatible with the MER and NS empirical realities **are wrong** and will be changed by the actual empirical reality or **development dynamic** and will be replaced by natural scientific ones.

Thereby,

If the observer does not try to know and understand

and follow the related natural being's WVLMSTFC
etc. he or she as an observer will go a wrong way

Thereby the view *that*
the observer creates reality,
is wrong from the beginning,
because, going one's own way, (the observer's way),
is not the human body's, nature's and the universe's
way,

it is the wrong way
with the related damages as a result of this irrele-
vance,
like all the human intellectual, physical social, envi-
ronmental and damaging diseases, etc.

2. The actual empirical reality or development dynamic,

This reality is a "development dynamic" which
changes all man-made unnatural innovations and re-
places them with natural ones.

3. The relative empirical reality,

This is the reality that the human
/ understands from the human body, nature and
the universe or
/ he or she innovates and makes herself or
himself like all human and natural innovations, what
we see in our societies and in the world today
etc.

4. The natural scientific physical empirical reality,

This is the part of the MER which has material-
ized or

has been given the physical body by the MEP
thought, the MEP's Materialization Property.

This has existed before the human birth as well.

5. The MER or the Main Empirical Reality,

Related to the MER, this **non-physical** empirical reality, it was existing before both the human and the Universe were created.

))))))))))))))))))))))((((((((((((((((((((((((

4.C.13 Evolution Natural Selection and DNA

with all respect and greetings to Charles Darwin who had spent his life studying the Creation and its construction and function.

Darwin as a " human being " was " relative" like every other human being and the whole of humanity together. In this relativity, his views were " relative" as well and in this relativity,

there were points which, according to this study, are not " natural scientifically" right, like "Evolution."

Natural Selection,

According to the Encyclopedia Britannica,

....Process that results in *the adoption* of an organ-

*ism to its **environment**, by means of selectively re-producing changes in its **genotype**, or genetic constitution.*

According to the National Geographic,
....Natural selection can lead to speciation, where one species gives rise to a new and distinctly different species. (the above mentioned points are through internet and are about seeking natural selection.)

According to this study

I. Related to Matter – Inorganic Based on

this point that the matter is not aware of its own existence and thereby has not any DCDeR position in the universe.

- a. Not only matter has not created itself even
- b. the matter as an " inorganic being"
can never create any of the organic creatures mentioned above. But the existence of the functioning universe,
is undeniable proof for the existence of the MEP or the Creator who has constructed and given function to every natural creature and the whole universe.

Hereby

Evolution is not a process

of Matter and Essence (WVLMSFTA etc.)

, nor of the matter

by which matter is constructed and functions
in the form of different creatures.

Both physical matter and non-physical essence are

Summary :

Part three, Chapter four

the Universe View

In

the “ Matter Felling Property” Physics

))))))))))))))))))(((O))

Part three

I. Nothing point – Something point

Based on this point that,
the physical universe, including the human (before
her or his thinking and awareness properties start to
function) are existing and functioning, but they are
not aware of their existence. Their existence and
function is an undeniable proof for the existence of a
/ non-physical
/ not created
/ **before the physical universe existed Being**

who is the Constructor and Function Giver to the un-
aware universe, Who
is the MEP , the Main Essence (WVLMSFTA etc.)
and Property of the universe.

.....

II. Matter and Non-Matter Essence related to TAVDA

Matter, essence and the whole universe related to
TAVDA, The thinking, awareness, volition, decid-
ing, acting properties

Neither matter

nor the essence of the universe has TAVDA and

Thereby, they are not aware of their own existence,
hereby,

They can never be any DCDer and play a
deciding role. Both of them are two means for the
MEP in the construction of the universe.

.....

III.. Time's Logic and its Development

Past – present – future

One of the dimensions of time is its division into :
past – present - future

In this Logic

Always the present is the future of the past
And the future is the coming present this means that,

The present societies are

Neither past Nor future societies.

This development will continue until the human enters **into**

**the post-democratic herself and himself chosen
non-physical essence and property society**

without

any man-made things, neither physical nor intellectual means.

in which

there will not be any matter-related time.

IV. The “Main “ Natural sciences and

The “ Main” natural scientific studies

The whole universe including particles, are created

c. Without any human help and

d. Without any man made innovated means,

thereby

So long studies, are not

/ **without man made WVLMSFTA**

etc.

and

/ without man made means,

.....

(here aim of two withouts is not

Without human engagement,

It is rather,

Human interference, in

“ natural scientific function

of the natural beings by

/ man made (WVLMSFTA etc. and

/ man made means among others

Like Double - slit experiment.

Otherwise, human being take part in

Searches and studies).

.....

They are not “ **Main**” natural scientific studies,
they are

- 1.. “ Human understood” natural sciences
and because of human intellectual
relativity,

- 2.. They are relative views.

(((((((O))))))))(((((((O))))))))

Practicability

of these views, is

Existing, functioning but unaware universe.

((((((((O)))))))(((((O))))))

Three evaluation points

Three evaluation points

Unimaginability

Living behind present man made societies
and

Thinking, talking, looking, acting,
living

Natural scientifically, without any man made intellectual and physical WVLSMFTA etc.

is unimaginable but

Undeniability

This is undeniable that man made intellectual and physical WVLSMFTA etc. are not natural scientific and result of this un – natural scientifically is

All human intellectual, physical, social, environmental

Etc. diseases and problems.

The only way

Based on undeniability , the only way

is

the main natural scientific WVLMSFTA etc.
and property way to go.

((((((((((O)))))))(((((((((((O)))))))))
)))))))))(((((O)))))))(((((((((((((((((

Summary related to 4. A

thought – Matter

I. What does the Universe consist of ?

Related to Non-Matter and Matter

As it has been shown (related to the matter and non
–matter) in the following picture consisting parts of
the human body and the Universe are,

1. The Non-Physical MEP or the Main Essence
and Property or the
Creator who is the absolute **natural** science of
the universe.
- 2.. The Non-physical essence WVLMSFTA etc.
or

software of the creatures and the universe by
which all natural creatures are constructed

3.. The Non-Physical properties (applications)
by which
natural creatures have their different functions.

4.. The Physical Universe , etc. (**etc. is for be-
ings which are existing and human is not aware of
them**)

thereby, the views like
these views that at the last hand, the
universe consists of only matter or
only energy, are not right.

.....

II. MFPP or Matter Feeling Property physics

Existential cause of the “ Matter “ is

MFP or matter feeling property.

In the same way that,

By seeing property, human can se,

By talking property talk etc.

In the same way

By MFP , we can feel, non physical thoughts in

Their physical forms like,

Non physical essence (WVLMSFTA etc. of

Quark, atom, cell, tree etc. **in their physical**

forms like

Physical, quark, physical atom, physical cell,

Physical tree etc.

Without this MFP, the atom, cell, human, and universe,

Will exist only in the form of non physical thoughts of WVLMSTFA etc. and their functional properties in form of thoughts.

.....

III. **MFP mechanics, in the MFP physics,**

is based on

having TAVDA for becoming DCDeR or having thinking, awareness, volition, deciding, acting properties for being able to be a Decider, Creator, Developer.

In this relationship, the natural creatures are two groups,

1. Creatures **with TAVDA**,

This group, can think, decide and act,

This group can be DCDeR in their “creation given” level.

2. Creatures **without TAVDA**

this group, can't think, can't decide, can't act, thereby they are not any DCDeR in the construction and function of the universe.

Thereby,

Their function is deterministic lead by

**The MEP or the Main and absolute TAVDA
etc.**

((((((((((O)))))))))((((((((((O)))))))))

Summary Related to 4. B

So long researcher's studies and human life

Is not without any man made means,

They are not “ main natural scientific”.

I. Logical paradox

Of the Uncertainty principle

When somebody talks with “ certainty” about

validity of “ uncertainty” and determine that,

uncertainty is a “ right view”,

he or she, determines **with certainty**, that,

Uncertainty is a right view.

This determining by certainty,

First of all

negates uncertainty and probability and

becomes **a paradox which negates** or
falsifies uncertainty, probability, and

proves correctness of

“ certainty, predictability

something he or she rejects..

.....

**II. Researcher or observer related to
uncertainty, superposition,
probability, Randomness.**

A. Related to beings without TAVDA

These beings which are main part of
the universe, are not aware of their own
existence and

Thereby,

They are not aware of any uncertainty,
superposition, probability, randomness
etc.

Thereby

This part of universe has nothing to do with

Uncertainty, superposition, probability, randomness etc.

B. Related to human being

/ because of having TAVDA properties,
Is human being aware of her and his and
Universe's existence

But

/ because of being both intellectually
and physically "relative"
these mentioned four points are valid
in the case of human being.

But

Despite this validity of four points in
the case of human being,
Universe, functions,
/Without any uncertainty,
/ without any superposition,
/ without any probability,
/ without any randomness,

Because,

The DCDer of the universe is MEP as
/ Absolute thought or intellect with
/ Absolute TAVDA with
/ absolute accuracy,
/ Absolute perfectness etc.

C. the way to go, is,

Choosing research way of
"Main " natural scientific way, studies,
Without,
/ any man made

non physical WVLMSTFA etc. and
/ physical innovations.

as universe is created and functions.

In this way

**There will not be any,
Uncertainty, superposition, probability,
Randomness etc. in the main natural
scientific universe.**

((((((((((O)))))))))((((((((((O)))))))))
)))))))))((((((((((O)))))))))((((((((((((((((((((

Summary related to 4 C

1 Denying the existence of the Absolute

in creation, is a paradox which

A. Falsifies

the view of the rejecter, by,
Absolutely not being able to say, that
Absolutely, there is no Absolute.

B. Verifies,

What the denier rejects namely
verifies existences of “Absolute”.
Which means, in every case, there is an Absolute,

**No matter,
If it is denied or verified.**

.....

II.. Denying the “ affect “ of the non-physical being, from outside the matter in the matter.

All human physical activities are, result of related Thoughts, for ex.
/ being on the way to school
is result of **non physical thought** of school going.
/ calling some one,
Is result of “ thought of calling someone.
/ innovating, car, mobile, etc.
Are result of their “ innovation thoughts.
In addition as it is developed,
Every physical act by brain,
Is result of five different non physical acts.
Thereby,
The idea that “ non physical” can’t affect in the matter, from outside, is wrong.

.....

III.. The Big Bang

In the same way that,
the human has innovated so many un- natural innovations on the earth,
In the same way,
some people, have innovated many un- natural innovations or
un-natural interpretations,

both on the earth and in the space, among them,
the black hole, singularity and the big bang
(with any physical and intellectual definition).
For becoming (DCDer)

Decider, Creator, Developer,
the creatures should have,
at least (TAVDA) thinking, awareness, volition,
deciding and acting properties or applications,
like the human . but
the black hole, singularity, the big bang, have
Neither TAVDA properties nor applications,
Nor, seeing, hearing etc. properties.

Is this right, believing in that

the existing universe is made by
these man-made things which,
Absolutely can't think,
Absolutely can't be aware
Absolutely can't decide
Absolutely can't see anything,
Absolutely can't hear something, etc.

In other words,

The Universe is made **by**
“ **Absolute ignorance** “
“**absolute unawareness** “
“ **Absolute blindness** “,
“ **Absolute deafness** “, etc.
Namely the big bang.

.....

IV. Gravity , Space time

Mater – Energy

Evolution - DNA etc.

It is the same with

Gravity, space time

Matter – Energy,

They don't have any TAVDA properties for

being a DCDer. Again

not only

they are not any DCDer in function of the universe,

they are not even aware of their existence.

They are only two means for the MEP or the creator
for presenting own ideas to the human being.

.....

Practicability of the views is

Existing, functioning but unaware universe.

.....

Three evaluation points

Unimaginability

Living behind present man made societies
and

Thinking, talking, looking, acting,
living

Natural scientifically, without any man made intellectual and physical WVLMSFTA etc.

is unimaginable but

Undeniability

This is undeniable that man made intellectual and physical WVLMSFTA etc. are not natural scientific and result of this un – natural scientifically is

All human intellectual, physical, social, environmental

Etc. diseases and problems.

The only way

Based on undenyability , the only way
is

the main natural scientific WVLMSFTA etc.
and property way.

.....
